Purpose:

The purpose of this advice letter is to request the recovery of costs associated with the Ryan Ranch-Bishop Intertie project for the Monterey County Water District. The inclusion of the Ryan Ranch-Bishop Intertie in rate base will increase plant in service by \$283,576, which includes \$277,000 in actual project costs plus \$6,576 in accrued interest.

Background:

California American Water submits this request to recover cost related to the Ryan Ranch-Bishop Intertie project pursuant to advice letter filing consistent with the approved settlement agreement. Ryan Ranch-Bishop Intertie project will provide Ryan Ranch service area with sufficient capacity to meet demands during peak events.

On April 9, 2015, the Commission adopted D.15-04-007 which approved most of the partial settlement agreement between California American Water and several parties, including the Office of Ratepayer Advocates ("ORA"). Section 22.9.9 of the settlement addresses treatment of capital advice letter projects;

CAW and ORA agree that if the capital projects are not included in present rate revenue, then the respective capital projects shall continue to be designated advice letter projects and accrue interest in the same manner as the prior settlement. CAW and ORA further agree that these capital advice letter projects would have to be filed after a decision is reached in this GRC. Accordingly, CAW provides the latest completion date information for the various advice letter projects. In summary, CAW represents that the following projects are complete, or they will be completed in 2014, or they will be completed in 2015:

Monterey County

Ryan Ranch/Bishop Intertie (I15400101) - scheduled for completion in early 2015.

Per the prior settlement in D.12-06-016:

RESOLUTION:

As a result of settlement discussions, DRA agrees with the need for this investment project. As part of their recognition of this investment project, DRA expects California American Water to first obtain Monterey Peninsula Water Management District (MPWMD) approval to construct this intertie. This expectation is consistent with Commission approval in the 2008 GRC. (D.09- 07-021, Ordering Paragraph 3.) Both parties understand that MPWMD will not approve the intertie project until Bishop Well No. 3 is complete (reference IP-0540-85 discussed previously). California American Water and DRA acknowledge that by providing this interconnection between Bishop and Ryan Ranch systems, it is understood the intention is Bishop will provide an emergency source of supply to Ryan Ranch. Further, it is understood that although the interconnection between Ryan Ranch and Monterey Main system will continue to exist, Monterey Main will curtail its supply to Ryan Ranch to minimize Ryan Ranch’s reliance on the Carmel River water supply. Finally, DRA and California American Water recommend that the Commission affirm its approval of this investment project in the amount of \$277,000, plus interest, and that California American should be authorized to seek a rate base offset by filing a Tier 2 Advice Letter when the project has been completed and is used and useful, at costs not to exceed those indicated. As part of this settlement agreement, certain capital projects in California American Water’s 2010 general rate case application have been agreed to by the parties to have actual project costs accrue interest at an annual rate equal to California American Water’s weighted average cost of debt, as explained in more detail in the supporting language for Special Request # 33. Please see Section 11.26 of this Settlement Agreement.

Request / Rate Impact:

California American Water requests authorization to increase the revenue requirement for Monterey County District by \$45,278 or 0.08% for a total authorized operating revenue of \$54,170,243. Rates will increase for the Monterey County District, excluding the Ralph Lane, Chualar, Toro, and Garrapata service areas.

Tier Designation:

This advice letter is submitted with a Tier 2 designation.

Effective Date:

California American Water requests an effective date of January 29, 2017.

5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require relitigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

DWA must receive a response or protest via email (or postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, please include the utility name and advice letter number in the subject line.
