

WE ARE CAREFUL

OHIO
AMERICAN WATER

**Water meters clear
of plants and debris
help us provide better
service and more
accurate readings.**

At American Water, we strive each day to provide our customers with the best possible service. One way you can help is to keep your water meter clear so that it can be read easily and accurately. Snow, ice, leaves, plants and other debris can prevent access to your meter, or make it more difficult to find. And, keep in mind that pets can sometimes make it more difficult to access meters too.

Keeping your meter clear permits easy access and enables quick and accurate readings. Estimated read dates can be found on your water bill to make it easy for you to plan to double check and clear any obstructions.

We appreciate your help, and we are proud to be your local water service company.

IMPORTANT SAFETY NOTICE:

American Water meter readers and field representatives always wear company identification badges. You have the right to ask to see proper identification, or to call our customer service center to confirm that readings are scheduled in your neighborhood.
