

California American Water's offers rebate incentives for pop-up spray head and nozzle retrofits in both multi-family residential and commercial, industrial and institutional (CII) or public authority sectors. The rebate incentive for pop-up spray heads and nozzles are separated into two categories: standard sprinkler nozzles/heads and large rotary sprinklers.

Standard Sprinkler Nozzles:

Pop-up spray heads with multi-stream, multi-trajectory rotating nozzles are eligible for California American Water rebate incentives. These types of nozzles save water by improving water distribution an average of 23 percent and can reduce irrigation run times by an average of 22 percent.

The following sprinkler nozzles (including earlier models) currently qualify for rebates:

Hunter Industries www.hunterindustries.com

MP Rotator

MP1000, MP2000, MP3000, MP Corner, MP Strip (available in both male and female threaded versions)

Rain Bird Corporation www.rainbird.com

Rotary Nozzles

R13-18Q: 13' to 18' (4,0 m to 5,5 m)

quarter-circle pattern nozzle

R13-18T: 13' to 18' (4,0 m to 5,5 m)

third-circle pattern nozzle

R13-18H: 13' to 18' (4,0 m to 5,5 m)

half-circle pattern nozzle

R13-18TT: 13' to 18' (4,0 m to 5,5 m)

two-thirds-circle pattern nozzle

R13-18TQ: 13' to 18' (4,0 m to 5,5 m)

three-quarter-circle pattern nozzle

R13-18F: 13' to 18' (4,0 m to 5,5 m)

full-circle pattern nozzle

R17-24Q: 17' to 24' (5,2 m to 7,3 m)

quarter-circle pattern nozzle

R17-24H: 17' to 24' (5,2 m to 7,3 m)

half-circle pattern nozzle

R17-24F: 17' to 24' (5,2 m to 7,3 m)

full-circle pattern nozzle

R17-24T: 17' to 24' (5,2 m to 7,3 m)

third-circle pattern nozzle

R17-24TT: 17' to 24' (5,2 m to 7,3 m)

two-thirds-circle pattern nozzle

R17-24TQ: 17' to 24' (5,2 m to 7,3 m)

three-quarter-circle pattern nozzle

ELIGIBLE DEVICES FOR REBATES

HIGH PERFORMANCE ROTORS

LANDSCAPE

Large Rotary Nozzles:

High Efficiency Nozzle retrofits for Large Rotary Sprinklers replace standard plastic nozzles with durable metal nozzles. These replacement nozzles are resistant to wear and provide high distribution uniformity of water. Mostly used on golf courses for long range and close-in watering. The following manufacturer of REPLACEMENT NOZZLES FOR LARGE ROTARY SPRINKLERS qualify for rebates:

The following large rotary nozzles (including earlier models) currently qualify for rebates:
