DECISION NO. \_\_\_\_\_

Schedule No. LA-1 (Continued)  
Los Angeles District Tariff Area  
GENERAL METERED SERVICE

SPECIAL CONDITIONS:

1. All bills are subject to the reimbursement fee set forth in Schedule No. UF
2. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of San Marino 1.143%; City of San Gabriel 2.0%; City of Rosemead 1.183%; County of Los Angeles 2.417%; City of Duarte 1.966%; and City of Bradbury 1.959%. Franchise taxes in the Baldwin Hills District is 2.00% per customer on a monthly basis.
3. Per the final decision D10-06-038, a surcharge of \$0.0306 per ccf will be applied to each bill to fund conservation efforts. The surcharge will remain in effect until otherwise directed by the Commission. (D)
4. Per D. 07-08-030, a Distribution System Improvement Charge (DSIC) surcharge is included on each bill to recover cost associated with infrastructure replacement. Please refer to Schedule No. LA-DSIC for more information.
5. Per Advice Letter 865, a surcharge is applied to each bill to offset increases in purchased water costs effective July 1, 2010. This offset results in a needed revenue increase of \$922,037 or 3.57%. The surcharge listed below by service area is added to the quantity rate beginning the effective date of Advice Letter 865. (L)

Service Area	Purchase Water Surcharge per ccf
Baldwin Hills	\$0.2525
Duarte	\$0.0906
San Marino	\$0.0486

GENERAL METERED SERVICE

SPECIAL CONDITIONS (Continued)

8. Per Advice Letter 905, a volumetric surcharge will be applied to each customer's bill to collect \$1,146,054 to fund the undercollected balance in the Water Litigation Memorandum Account for the Los Angeles District. This surcharge is applicable to all customers in the Los Angeles District and will remain in effect 12 months from the effective date of Advice Letter 905.

Service Area	Water Contamination Surcharge per ccf
Baldwin Hills	\$0.1156
Duarte	\$0.1156
San Marino	\$0.1156

9. Any customer paying for service at a premise where a Residential Fire Sprinkler System (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly costs for Residential Fire Sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

LOW INCOME RATEPAYER ASSISTANCE PROGRAM (continued)

SPECIAL CONDITIONS APPLICABLE TO LOW INCOME

1. Low-Income Ratepayer Assistance Program (LIRA): As reflected in this tariff, qualifying customers receive a \$6.50 discount per month. Customers must apply with the Company for acceptance into the low income program. Qualification criteria are outlined below. This program is also known as the H2O Help to Others Program.
  - a. LIRA Household: A LIRA Household is a household where the total gross income from all sources, including total income from all persons living full-time in the household, is less than shown on the table below based on the number of persons in the household. Total gross income shall include both taxable and non-taxable income. Persons who are claimed as a dependent on another person's income tax return are not eligible for this program. The California American Water bill must be in the customer's name.

Income Guidelines (Effective June 1, 2011 to May 31, 2012)	
No. of Persons in Household	Total Gross Annual Income
1 or 2	\$31,800
3	\$37,400
4	\$45,100
5	\$52,800
6	\$60,500
For households with more than six persons	Add \$7,700 annually for each additional person residing in the household.

- b. Application and Eligibility Declaration: An application and eligibility declaration on a form authorized by the Commission is required for each request for service under this schedule. Renewal of a customer's eligibility declaration will be required every two years and may be required on an annual basis. Customers are only eligible to receive

- b. service under this rate schedule at one residential location at any one time, and the rate applies only to the customer's permanent primary residence. This schedule is not applicable where, in the opinion of the Company, either the accommodation or the occupancy is transitory. The customer must present documentation showing approval into Southern California Edison's (SCE) California Alternate Rate for Energy (CARE) Program or provide verification of their household income. Forms of verification include a copy of the customer's Federal Income Tax Form 1040 including W-2 forms. If the customer is self-employed, a copy of Schedule C should be provided. (N)
- c. Commencement of Rate: Eligible customers shall be billed on this schedule commencing no later than one billing period after receipt and approval of the customer's application by the Company.
- d. Verification: Information provided by the applicant is subject to verification by the Company. Refusal or failure of a customer to provide documentation of eligibility acceptable to the Company, upon the request of the Company, shall result in removal from this rate schedule.
- e. Notice from Customer: It is the customer's responsibility to notify the Company if there is a change in the customer's eligibility status. Notification should be made within 30 days of the customer's change in eligibility.
- f. Customers may be re-billed for periods of ineligibility under the applicable rate schedule. (N)

LOW INCOME RATEPAYER ASSISTANCE PROGRAM (continued)

SPECIAL CONDITIONS APPLICABLE TO ALL CUSTOMERS (continued): These conditions are applicable to all metered customers, including low income.

- 8. Per Advice Letter 905, a volumetric surcharge will be applied to each customer's bill to collect \$1,146,054 to fund the undercollected balance in the Water Litigation Memorandum Account for the Los Angeles District. This surcharge is applicable to all customers in the Los Angeles District and will remain in effect 12 months from the effective date of Advice Letter 905.

Service Area	Water Contamination Surcharge per ccf
Baldwin Hills	\$0.1156
Duarte	\$0.1156
San Marino	\$0.1156

- 9. Any customer paying for service at a premise where a Residential Fire Sprinkler system (RFSS) is required/requested to be installed by local fire and building codes will be allowed to have their monthly service charge modified in accordance with the monthly cost for Residential Fire sprinkler System service charges as shown in the attached RFSS tariff. Provided, however, that the RFSS rate has been requested by the customer and verified by the Company that the smaller size of meter would be large enough to provide adequate service for the property in absence of the additional demand necessary to supply water to the sprinkler system. The RFSS will not be considered a fire service by the Company, but as an oversized general metered service. As such the rules and conditions of service for general metered service shall apply.

Schedule No. LA-3M

Los Angeles District Tariff Area

MEASURED IRRIGATION SERVICE

APPLICABILITY

Applicable to all measured service for irrigation purposes as defined in the special conditions below. Applicable only to premises serviced under Schedule No. LA-3M on a continued basis on and after January 1, 1969.

TERRITORY

Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, Los Angeles County.

RATES

Quantity Rates:

A. Pressure service all water, per 100 cu. ft. ....	\$1.2324	(R)
B. Gravity service all water, per 100 cu. ft. ....	\$1.0893	(R)

Service Charge:

	<u>Per Meter Per Month</u>	
For 5/8 x 3/4-inch meter .....	\$1.71	(R)
For 3/4-inch meter .....	2.54	
For 1-inch meter .....	4.23	
For 1-1/2-inch meter .....	8.48	
For 2-inch meter .....	13.55	
For 3-inch meter .....	25.41	
For 4-inch meter .....	42.30	
For 6-inch meter .....	84.76	
For 8-inch meter .....	135.63	(R)

The Service Charge is a readiness-to-serve charge which is applicable to all metered service and to which is to be added the charge for water used computed at the Quantity Rates.

TITLE

## Schedule No. LA-3M (continued)

## Los Angeles District Tariff Area

MEASURED IRRIGATION SERVICESPECIAL CONDITIONS

1. Measured irrigation service to be supplied under these tariffs is only for water used for commercial agricultural, commercial floracultural, or commercial horticultural purposes, and served from a connection to the special irrigation system in the area.
2. Premises as used in connection with this tariff schedule means a contiguous parcel of land on which there is a large enough area to engage in the commercial activities outlined in Special Condition No. 1 over and above the land on the premise which is improved in a manner not eligible for this rate under Special Condition No. 1.
3. If a portion of the premise served under this schedule is developed and used for purposes other than those outlined in Special Condition No. 1, such as but not restricted to, housing, ornamental noncommercial landscaping, lawns swimming pools, etc., there must be installed a separate service connection on the Company's domestic system which will be billed under Schedule No. DU-1, and no water from the service installed under Schedule DU-3M will be used in connection for such portion of the premise.
4. If a premise which is entitled to measured irrigation service by virtue of having been receiving such service continuously since January 1, 1969 and complying with the Special Conditions mentioned above is divided into two or more premises, each such premise resulting from such division may apply for service under this schedule, providing the development of the premise is such that it can qualify under the Special Conditions of this Tariff Schedule No. DU-3M.
5. A customer on the premise eligible for this irrigation service may request for his convenience an additional service or services and a customer eligible for service on this schedule in connection with the division of a premise may apply for a service to his portion of the divided premise. The cost of such service shall be paid by the applicant.

MEASURED IRRIGATION SERVICE

SPECIAL CONDITIONS (continued):

Such payment shall not be subject to refund. Following the date of the adoption of this schedule, no applications will be taken or service connections installed of less than 1-1/2-inch in diameter provided that in connection with the installation of additional services on the irrigation system the following special conditions must be met:

- a. If an irrigation main of adequate size to serve additional service connections does not exist adjacent to the premises to be served, then a main from the nearest existing irrigation main of adequate capacity shall be installed by the utility and the cost paid by the applicant. Such payment shall not be subject to refund.
- b. If off-site facilities of the irrigation system are inadequate to serve additional service I will not install such new service unless the applicant is willing to pay the cost without refund of the necessary additions to the off-site facilities to enable the utility to adequately serve the additional service connections requested.

6. All bills are subject to the reimbursement fee set forth in Schedule No. UF.

7. A surcharge is included on each bill to collect franchise taxes and/or business license fees paid to various municipalities. The amount collected is based on a percentage of the gross revenues of each bill. The percentages are as follows: City of Duarte, 1.966%; and City of Bradbury, 1.959%.

8. A surcharge of \$0.0469 per ccf is included in each bill to recover the difference between interim and final rates authorized by the Commission in D.10-06-038. The total under-collection, including interest, is \$7,882 and will be recovered over a 12 month period beginning July 17, 2010.

DIRECTOR RATES & REGULATION

RESOLUTION NO. \_\_\_\_\_

TITLE

Schedule No. LA-4

Los Angeles District Tariff Area

PRIVATE FIRE PROTECTION SERVICE

APPLICABILITY

Applicable to all water service furnished for privately owned fire protection systems.

TERRITORY

Baldwin Hills Service Area consisting of Baldwin Hills, Windsor Hills, View Park, Ladera Heights, and vicinity, Duarte Service Area consisting of Bradbury, Duarte, portions of Irwindale, Monrovia, and vicinity, and San Marino Service Area consisting of San Marino, Rosemead, portions of San Gabriel, Temple City and vicinity, Los Angeles County.

RATE

Per Month

For each inch of diameter of private fire protection service, monthly minimum charge based on 4" service..... \$8.33 (R)

The rates for private fire service are based upon the size of the service and no additional charges will be made for fire hydrants, sprinklers, hose connections or standpipes connected to and supplied by such private fire service.

SPECIAL CONDITIONS

1. The fire protection service and connection shall be installed by the Utility or under the Utility's direction. Cost of the entire fire protection installation shall be paid for by the applicant. Such payment shall not be subject to refund.
2. The installation housing, the detector type check valve and meter and appurtenances, thereto, shall be in a location mutually agreeable to the applicant and the Utility. Normally such installation shall be located on the premises of applicant, adjacent to the property line. The expense of maintaining all facilities which are the sole property of the applicant (including the vault, meter detector type check valves, backflow device and appurtenances) shall be paid for by the applicant.
3. All facilities paid for by the applicant, excluding the connection at the main and any service pipe located in a public right-of-way, shall be the sole property of the applicant. The utility and its duly authorized agents shall have the right to ingress to and egress from the premises for all purposes relating to said facilities.

PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

4. The minimum diameter will be 1 inch, and the maximum diameter will be the diameter of the main to which the service is connected.
  - a. The minimum diameter of connections for private fire hydrants will be six inches.
5. If distribution main of adequate size to serve a private fire protection system in addition to all other normal services does not exist in the street or alley adjacent to the premises to be served, then a main from the nearest existing main of adequate capacity shall be installed by the Utility, or under the Utility's direction, and the cost paid by the applicant. Such payment shall not be subject to refund.
6. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction. All facilities are to be installed according to the Utility's specifications and maintained to the Utility's satisfaction. The Utility may require the installation of a backflow prevention device and a standard detector type meter approved by the Insurance Services Office for protection against theft, leakage or waste of water.
7. No structure shall be built over the fire protection service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the fire protection service facilities.
8. Subject to the approval of the Utility, any change in the location or construction of fire protection service as may be requested by public authority or the customer will be made by the Utility following payment to the Utility of the entire cost of such change. (L)
9. Any unauthorized use of water other than fire protection purposes, charges shall be made therefore at the regular established rate for general metered service, and/or may be grounds for the Utility discontinuing the fire protection service without liability to the Utility.
10. All bills are subject to the reimbursement fee set forth on Schedule No. UF. (L)

PRIVATE FIRE PROTECTION SERVICE

SPECIAL CONDITIONS (continued):

12. Per Advice Letter 865, a surcharge is applied to each bill to offset increases in purchased water costs effective July 1, 2010. This offset results in a needed revenue increase of \$922,037 or 3.57%. The surcharge listed below by service area is added to the quantity rate beginning the effective date of Advice Letter 865.

Service Area	Purchase Water Surcharge per ccf
Baldwin Hills	\$0.2525
Duarte	\$0.0906
San Marino	\$0.0486

RESOLUTION NO. \_\_\_\_\_

Schedule No. LA-DSIC  
Los Angeles District Tariff Area  
DSIC Rate Tariff

APPLICABILITY

The tariff rate specified herein shall be applicable to all bills for water service on or after the effective date noted below for the duration of the pilot authorized in D.07-08-030, August 23, 2007, as modified by D. 08-10-045.

PURPOSE

The purpose of this tariff is to provide a mechanism to recover the fixed costs of replacement capital projects completed in the Los Angeles District on or after January 1, 2007. The eligible capital projects to be included in this charge are detailed below.

RATE

Percent of Total Water Bill

**DSIC Surcharge Rate** is calculated as shown in ELIGIBLE PLANT 8, and is effective when a DSIC advice letter is filed with the Commission, subject to refund when the Commission issues its resolution on the advice letter. 3.12% (R)

Per Resolution W-4734, Cal Am shall track all DSIC surcharges in a balancing account and compare the amounts collected versus authorized for later recovery or refund. Cal Am may request a higher DSIC rate up to the quarterly and annual cap limitations to reduce or eliminate any under-collections.

0.00% (D)  
3.12% (R)

**TOTAL DSIC Surcharge**

This percentage is applied to all bills for water service on or after the effective date which shall be the date the advice letter is filed with the Commission, and which is noted hereon.

SPECIAL CONDITIONS APPLICABLE TO THE CHARGE

1. The charge is applicable to all water service billed under tariff rate Schedules LA-1, LA-3M and LA-4.
2. The charge above shall be applied to all bills rendered on or after the effective of this tariff.
3. The charge will not be applicable to Special Condition Surcharges.
4. The charge is subject to the PUC reimbursement fee set forth in Schedule No. UF.
5. Any charge in effect as a result of D.07-08-030 will be reset to zero at the time of the approval of new rates from the next Los Angeles District rate case to be filed in November 2008.

DEFINITION OF TERMS

1. DSIC – Distribution System Improvement Charge
2. Mass Property – All items replaced under a general category where the replacement cost is less than \$20,000.

TITLE

Schedule No. LA-DSIC (continued)

Los Angeles District Tariff Area

DSIC Rate Tariff

DEFINITION OF TERMS (Continued)

- 3. Rehabilitation – refers to substantial repairs to facilities that are eligible for capitalization under the National Association of Regulated Utility Commissioners Plant accounting guidelines. This would include for example, well relining, cement coating of mains, installation of distribution tank liners, etc.

(L)

ELIGIBLE PLANT

- 1. The DSIC Surcharge is applicable to the replacement or rehabilitation of existing supply, production, water treatment, and transmission and distribution facilities that are revenue-neutral (non-revenue producing, non-expense reducing), are generally for "in-kind" replacements of deteriorated facilities that have reached the end of their useful lives.
- 2. In particular the DSIC surcharge is applicable to the following facilities:

(L)

Item #	PUC Plant Account	Description of Plant Item
1	311	Source of Supply Structures and Improvements
2	312	Collecting and Impounding Reservoirs
3	313	Lake, River and Other Intakes
4	314	Springs and Tunnels
5	315	Wells
6	316	Supply Mains
7	321	Pumping Plant Structures and Improvements
8	324	Pumping Equipment
9	325	Other Pumping Plant
10	331	Water Treatment Structures and Improvements
11	332	Water Treatment Equipment
12	341	Transmission and Distribution Structures and Improvements
13	342	Reservoirs and Tanks
14	343	Mains
15	344	Fire Mains
16	345	Services
17	346	Meters
18	347	Meter Installations
19	348	Hydrants
20	349	Other Transmission and Distribution Equipment

- 3. The DISC surcharge is not to be used for facilities predominately for customer growth,
- 4. The DSIC surcharge is not to be used in conjunction with project to be financed by developers, or projects financed by grants, low interest loan, State Revolving Funds, or other non-Company funded projects.

7. The following documentation is necessary when filing a quarterly Advice Letter requesting the DSIC surcharge:
- a. For pre-reviewed items contained in item 5 above: (continued)
    - i. Project completion notice for any specific project and/or accounting detail for mass property replacement.
    - ii. Detailed cost analysis for all projects completed in the quarter, which requires at a minimum the following:
      - 1. Monthly totals
      - 2. Labor costs
      - 3. Labor overheads
      - 4. Engineering overheads
      - 5. Details on all journal entries
      - 6. Outside contractor invoices
      - 7. Material charges
      - 8. Miscellaneous Charges (separate detail for all charges over \$1000)
    - iii. Invoices from all outside vendors.
    - iv. Drawings for all specific projects.
    - v. Detailed list of all replacement of mass property with at least the minimum detail
      - 1. Listing by size of item (i.e. 2" service)
      - 2. Quantity of item
      - 3. Listing by material composition (i.e. steel)
  - b. For items not contained on the pre-reviewed list under item 5 above:
    - i. All items contained in 7 (a) above.
    - ii. Detailed description of the project and the project need and the alternatives that had been considered with the cost analysis and resulting decision.
    - iii. Explanation of why the project had to be completed at this time and the risks of not completing it now.
    - iv. For pre-reviewed projects that exceed the dollar value listed, a complete comparison of settlement cost and those actually incurred with an explanation of why the costs exceeded those in the settlement.

8. An example of the quarterly calculation is as follows:

CALIFORNIA AMERICAN WATER  
 LOS ANGELES OPERATING DISTRICT

STEP ONE - IDENTIFY DSIC-ELIGIBLE NET ADDITIONS

January and February 2007- ELIGIBLE NET ADDITIONS

ACCOUNT NUMBER	DESCRIPTION	ADDITIONS	RETIREMENTS	NET ADDITIONS
325	Other Pumping Equipment	41,360	0	41,360
332	Water Treatment Equipment	4,000	0	4,000
343.2	Distribution Mains - 6" to 10"	383,160	1,080	382,080
345	Services	78,000	1,838	76,162
346	Meters	30,000	0	30,000
348	Hydrants	4,800	29	4,771
	Totals	\$541,320	\$2,947	\$538,373

STEP TWO - CALCULATE ANNUAL AND MONTHLY DEPRECIATION

ACCOUNT NUMBER	DESCRIPTION	ANNUAL DEPRECIATION RATE	ADDITIONS	DEPRECIATION
325	Other Pumping Equipment	4.98%	41,360	2,060
332	Water Treatment Equipment	6.72%	4,000	269
343.2	Distribution Mains - 6" to 10"	2.44%	383,160	9,349
345	Services	3.05%	78,000	2,379
346	Meters	4.16%	30,000	1,248
348	Hydrants	2.75%	4,800	132
	Total Annual Depreciation		\$541,320	\$15,437
	Total Monthly Depreciation			\$1,286

STEP THREE - CALCULATE ANNUAL AND MONTHLY AD VALOREM TAXES

DSIC-eligible net additions	\$538,373
Ratio of ad valorem taxes to net plant	1.00%
Total additional annual ad valorem taxes	\$5,384
Total additional monthly ad valorem taxes	\$449

STEP FOUR - CALCULATE ADDITIONAL PRE-TAX RETURN

2006 PRE-TAX COST OF CAPITAL

As Determined by CPUC in GRC Decision

Capital	Amount (000's)	Percent	Capital Cost	Weighted Cost Rate	Revenue Multiplier	Revenue Requirement Factor
Debt		58.97%	6.36%	3.75%		3.75%
Equity		41.03%	10.00%	4.10%	1.74627	7.16%
Total		100.00%		7.85%		10.92%

4-1-07 SURCHARGE CALCULATION

Eligible Net Additions	\$538,373
Less: Accumulated Depreciation On Jan and Feb Additions (2 Months)	2,573
Additional Net Rate Base for 4-1-07 DSIC Calculation	\$535,800
Revenue Requirement For Net Rate Base Increase	\$58,485
Quarterly Revenue Requirement For Net Rate Base Increase	\$14,621
Quarterly Depreciation Expense on Eligible Investments	3,859
Quarterly Ad Valorem Taxes on Eligible Investments	1,346
Total Quarterly DSIC Costs	\$19,826
Base Rate Revenue From 4-1-07 to 7-1-07	\$4,727,000
DSIC Surcharge To Be Applied To Bills Rendered From 4-1-07 to 7-1-07	0.42%

DECISION NO. Res. W-4734

DIRECTOR - RATES & REVENUES

RESOLUTION NO.

TITLE

Schedule No. LA-DSIC (continued)  
 Los Angeles District Tariff Area  
DSIC Rate Tariff

DSIC REQUIREMENTS, PROCEDURES AND SAFEGUARDS

(T)

1. The DSIC adopted is a routine infrastructure surcharge as a pilot program, with the intention that if this is successful in meeting our Water Action Plan objectives, a similar surcharge mechanism could be considered for other California American Water districts and other Class A water utilities. The Commission will fully review the pilot in California American Water's next Los Angeles District GRC proceeding scheduled according to the Rate Case Plan, D.07-05-062.
2. The DSIC surcharge is capped as follows:
  - a. The maximum quarterly allowance for the DSIC surcharge is \$756,376.
  - b. The maximum allowance of the DSIC surcharge for the entire rate case period is \$1,323,588.
  - c. The DSIC surcharge will not exceed the quarterly or rate case period cap.
3. California American Water will have flexibility within these caps to reprioritize or add projects, and to shift authorized funding between projects, provided it continues to follow its existing internal project review process and submits supporting documentation (as discussed in Section 6 of this tariff) to the Commission at the time it requests new or revised projects be included under the DSIC surcharge.
4. California American Water will submit its infrastructure surcharge requests under the Commission's Tier 3 advice letter filing procedure that requires a formal Commission resolution, as specified in the General Order 96B. The advice letter procedure is a process that provides notice to all interested parties, a full protest period, and requires a formal Commission resolution for adoption.
5. The quarterly DSIC surcharge requested in the advice letter filing shall be effective immediately, upon filing of advice letter, subject to refund.
  - a. All refunds to customers will include interest at the 90-day commercial paper rate. The interest will be applied to the average monthly balance of DSIC surcharges to be refunded, and compounded monthly.
6. The DSIC surcharge is intended to recover the fixed costs of eligible plant "not previously reflected in rate base", and placed into service during the three month period that ended one month prior to the DSIC surcharge appearing on bills.
7. California American Water shall explicitly and clearly state in the advice letter filing, and provide supporting documentation, for (1) any project that was not approved in this GRC proceeding, and (2) any project that is included at an amount over the cost estimate authorized in this GRC proceeding.
8. California American Water retains the same burden of proof to justify costs approved in this DSIC procedure in its next GRC.

(continued)

(T)

Schedule No. LA-DSIC (continued)

Los Angeles District Tariff Area

DSIC Rate Tariff

DSIC REQUIREMENTS, PROCEDURES AND SAFEGUARDS (continued)

(N)

- 9. California American Water shall provide notification to customers of the DSIC in the form of a bill insert and a public notice, published in local newspapers, prior to initiating the first DSIC surcharge. California American Water will work with the Commission's Public Advisor on notice language and procedure. Cal Am shall designate on each customer's bill that this quarterly surcharge is a DSIC. (i.e. clearly identify by a line item on the bill, the amount of the surcharge and the name of the surcharge)
- 10. California American Water shall explicitly address infrastructure replacement in its capital asset planning process.
- 11. The capital plan shall include: delineating the age, condition, location, operating history and risk associated with the parts of the distribution infrastructure needing replacement or rehabilitation; justifying the extent of infrastructure replacement or rehabilitation warranted; incorporating impacts addressed by water conservation savings; identifying the amount of replacement per year, and how long the replacements will continue to provide safe reliable service to customers; discussing the financing and recovery alternatives considered; describing the long-term financial investment required; and, providing an analysis of the rate impact to customers over the course of the long-term project to replace or rehabilitate infrastructure.
- 12. The DSIC is subject to audit at the request of the Commission.
- 13. Annual Report – during the period of the pilot program, Cal Am agrees to submit information about the accomplishments of the DSIC program in the Annual Report that Cal Am submits to the Commission.<sup>1</sup> This annual reporting should include summary results such as quantities of plant replaced such as miles of water main, numbers of hydrants, numbers of services, etc. It should also provide an accounting of how the DSIC surcharge was used – such as an accounting comparing the eligible expenses incurred vs. the revenue received via the surcharge.
- 14. To avoid over-recovery, the DSIC may be set at zero if, in any quarter, data shows that the amount recovered via the DSIC surcharge would exceed the annual cap in terms of a percentage of amounts billed or percentage of annual revenue requirement.
