### AN INTRODUCTION TO CUSTOMERS

The approved tariff located in the Company's office at 131 Woodcrest Road, Cherry Hill, NJ, is available for your review. The Company is obligated to keep its tariff current, including any changes approved by the Board of Public Utilities. The Company is required to maintain it in exactly the same format as the Company's tariff on file at the Board of Public Utilities, Two Gateway Center, Newark, N.J. The Division of Water is on the 9<sup>th</sup> Floor.

If, after you review this tariff and discuss it with appropriate Company employees, you still have questions regarding clarification or interpretations, please contact the Board of Public Utilities, Division of Water, Bureau of Rates and Tariff Design at 1-973-648-2275 or the Board's Division of Customer Assistance at 1-973-648-2350 or 1-800-624-0241, or at [www.nj.gov/bpu/](http://www.nj.gov/bpu/).

You have the right to review this tariff at the Company's offices or at the Board's office in Newark. Your inquiries will be handled by the Board's Staff in an expeditious manner in order to protect your rights as well as those of the water and/or sewer Company. Please feel free to exercise this right by telephone or by visiting the Board's offices at any time between the hours of 9:00 a.m. and 5:00 p.m., Monday through Friday, or by writing a letter. The letter should contain the writer's name, address and phone number, including the area code. If the writer is a customer of record, the account number should be included.

The Company also has available in its office a leaflet entitled "The Utility Customer's Bill of Rights." This is a summary document; it does not include all customer rights or utility obligations.

The Board of Public Utilities is responsible for the final interpretation and enforcement of a utility's tariff provisions and rates. The utility is bound by New Jersey's statutes and the Board's regulations. If a conflict should exist in the tariff that is detrimental to the customer, the Board's regulations supersede the tariff provision absent specific approval to the contrary by the NJ Board of Public Utilities. A utility company may provide for more liberal treatment than that provided for in the Board's regulations.

### AN OVERVIEW OF COMMON CUSTOMER COMPLAINTS AND CUSTOMER RIGHTS

- (1) No public utility shall refuse to furnish or supply service to a qualified applicant. (Board Order CX86602155)
- (2) The utility shall not place the name of a second individual on the account of a residential customer unless specifically requested by said second individual. (N.J.A.C. 14:3-3.2(b))

### DEPOSITS

- (3) If after notice of the methods of establishing credit and being afforded an opportunity, a customer has not established satisfactory credit, the utility may require a deposit. The deposit amount shall be determined by taking the cost of service for one year, dividing by twelve and multiplying that figure by 2. (ex: 12 months total bills = \$763.54 divided by 12 = \$63.63 multiplied by 2 = \$127.26 deposit, or \$127), in accordance with N.J.A.C. 14:3-3.4.
- (4) The utility must furnish a receipt to any customer posting a deposit. The deposit will be returned with simple interest at a rate established annually by the Board of Public Utilities. Once the customer has established satisfactory credit with the utility, the deposit shall be returned to the customer with interest due. The customer has the option of receiving the deposit refund either by a check or a credit on the account. If a residential customer's deposit is not returned, the utility shall credit the customer's account with the accrued interest once every twelve months, in accordance with N.J.A.C. 14:3-3.5.

(Continued)

DEPOSITS

(Continued)

- (5) Where a water or sewer utility furnishes unmetered service, for which payment is received in advance, it may not require a deposit. (N.J.A.C. 14:3-3.4(j))

DEFERRED PAYMENT ARRANGEMENTS

- (6) A customer is entitled to at least one deferred payment plan in one year. In the case of a residential customer who receives more than one utility service from the same utility (ex: water and sewer; gas and electric) and the amount which is in arrears is a combination of those services, the utility shall offer a separate deferred payment agreement for each service based on the outstanding balance for that service. (N.J.A.C. 14:3-7.7(b)2) The Company must renegotiate the deferred payment agreement should the customer document a significant change in financial situation. The Company must also issue a new discontinuance notice each time it intends to shut off service, including defaults on the terms of the agreement. In the case of a residential customer who receives more than one utility service from the same utility and has subsequently entered into an agreement for each separate service, default on one such payment agreement shall constitute grounds for discontinuance of only that service. (N.J.A.C. 14:3-7.7(f))

DISCONTINUANCE OF SERVICE

- (7) A water and sewer utility shall not discontinue service because of nonpayment of bills in cases where a charge is in dispute provided the undisputed charges are paid (N.J.A.C. 14:3-3A.2(e)5) and a request is made to the Board within five (5) days for investigation of the disputed charge. The Company must advise the customer of their right to appeal to the Board of Public Utilities. (N.J.A.C. 14:3-7.6(b))
- (8) A customer has fifteen (15) days to pay a bill. A water and/or sewer company may not discontinue water or sewer service unless it has provided written notice giving the customer at least ten (10) days notice prior to the proposed discontinuance. The 10 days shall begin on the postmark date of the notice. This written notice shall be sent by first class mail, apart from the bill and as a separate mailing. (N.J.A.C. 14:3-3A.3 (c)) The notice shall not be given until after the expiration of the said fifteen (15) day time to pay a bill. (N.J.A.C. 14:3-3A.3(b)) The notice shall contain sufficient information for the customer to notify the Board of Public Utilities of the nature of the dispute. The utility shall make a good faith effort to determine which of its residential customers are over 65 years of age, and shall make good faith efforts to notify such customers of discontinuance of service by telephone in addition to notice by regular mail. This effort may consist of an appropriate inquiry set forth on the notice informing customers that they may designate a third party to receive notice of discontinuance. Utilities shall annually notify all residential customers that, upon request, notice of discontinuance of service will be sent to a designated third party as well as to the customer of record. This provision shall not apply if Company makes a good faith effort to contact all residential customers by telephone prior to discontinuance and file with the Board a statement setting forth such procedure. (N.J.A.C. 14:3-3A.4))
- (9) Public Utilities shall not discontinue residential service except between the hours of 8:00 a.m. and 4:00 p.m. Monday through Thursday unless there is a safety-related emergency. There shall be no involuntary discontinuance of service on Fridays, Saturdays and Sundays or on the day before a New Jersey State holiday or on a New Jersey State holiday, absent such emergency. N.J.A.C. 14:3-3A.1(c)

(Continued)

DISCONTINUANCE OF SERVICE

(Continued)

- (10) The Company shall make every reasonable attempt to determine when a landlord-tenant relationship is known to exist, and if the tenants are not the customers of record but are end-users, as these terms are defined at N.J.A.C. 14:3-1.1, discontinuance of service is prohibited unless the utility has given a 15-day written notice to the owner of the premises or to the customer of record to whom the last preceding bill was rendered. Further, the utilities shall use their best efforts to determine the names and addresses of each tenant, in order to provide such notice, for example, through mailings to landlords requesting a list of tenants. The utility shall use its best efforts to provide copies of the discontinuance notice to all tenants. In addition, the utility shall provide the tenant(s) with a fifteen (15) day written notice, which shall be hand delivered, mailed, or posted in a conspicuous area of the premises and in the common areas of multiple family premises. N.J.A.C. 14:3-3A.6.(a) If a utility uses posting as the method of notice, each utility shall use its best efforts to also place a copy of the notice on each tenant's car windshield or under the door of each tenant's dwelling. In the case of tenants of single and two-family dwellings, each tenant shall also be provided with a 15-day individual notice. Each utility shall offer the tenant(s) continued service to be billed to the tenant(s) unless the utility demonstrates that such billing is not feasible. The continuation of service to a tenant shall not be conditioned upon payment by the tenant of any outstanding bills due upon the account of any other person. The utility shall not be held to the requirements of this provision if the existence of a landlord-tenant relationship could not be reasonably ascertained. N.J.A.C. 14:3-3A.6.(b)
- (11) A customer has the right to have any complaint against the utility handled promptly by that utility. (Board Order, Docket No. CO8602155)
- (12) Each utility shall, upon request, furnish its customers with such information as is reasonable in order that the customers may obtain safe, adequate and proper service. (N.J.A.C. 14:3-3.3(a)) Each utility shall inform its customers, where peculiar or unusual circumstances prevail, as to the conditions under which sufficient and satisfactory service may be secured from its system. (N.J.A.C. 14:3-3.3(c)) Each utility shall supply its customers with information on the furnishing and performance of service in a manner that tends to conserve energy resources and preserve the quality of the environment. (N.J.A.C. 14:3-3.3(d))
- (13) The utility shall have the right of reasonable access to customer's premises, and to all property furnished by the utility, at all reasonable times for the purpose of inspection of customer's premises incident to the rendering of service, reading meters, or inspecting, testing, or repairing its facilities used in connection with supplying the service, or for the removal of its property. (N.J.A.C. 14:3-3.6(a)) Service can be discontinued for refusal of reasonable access to customer's premises for necessary purposes in connection with rendering of service, including meter installation, reading or testing, or the maintenance or removal of the utilities property. (N.J.A.C. 14:3-3A.1(a)5.i) Reconnection fees as shown on Rate Schedule P-2 will be charged upon restoration of service.
- (14) It is the responsibility of a customer who wishes to voluntarily discontinue his or her service to notify the Company and request a final reading. A customer wishing to discontinue service shall give notice to the utility. Within 48 hours of said notice, the utility shall discontinue service or obtain a meter reading for the purpose of calculating a final bill. Where such notice is not received by the utility, the customer shall be liable for service until the final reading of the meter is taken. Notice to discontinue service will not relieve a customer from any minimum or guaranteed payment under any contract or rate.

METER

- (15) The utility must provide for one free water meter test during any twelve (12) month period if the customer so requests it. (N.J.A.C. 14:3-4.5) A meter of a customer who has a complaint filed with the Board reflecting on the accuracy of the meter shall not be removed from service by the utility during the pendency of said complaint or during the following thirty (30) days unless otherwise authorized or directed by the Board. (N.J.A.C. 14:3-4.8(c)) When a billing dispute is known to exist, the water utility shall, prior to removing the meter, advise the customer that they may have the meter tested by the utility or may have the Board witness a testing of the meter by the utility, and that in any event the customer may have the test witnessed by a third party. (N.J.A.C. 14:3-4.5(c)) A meter test arising from a billing dispute may be appropriate in instances which include, but not limited to, unexplained increased consumption, crossed meters, consumption while an account is vacant or any other instance where the meter's accuracy might be an issue in a bill dispute. (N.J.A.C. 14:3-4.5 (d)) The customer can apply to the Board for a Board inspector to test the customer's meter. (N.J.A.C. 14:3-4.5(e)) For such a test, a fee, in accordance with N.J.S.A. 48:2-56, shall be paid to the Board by the customer at the time the application is made. (N.J.A.C. 14:3-4.5(f))
- (16) Whenever a water meter is found to be registering fast by more than one and one-half percent, an adjustment of charges shall be made in accordance with the regulations which can be found at N.J.A.C. 14:3-4.6.
- (17) A water utility must maintain records of customers' accounts for each billing period occurring within a six year period. Such records shall contain all information necessary to permit computation of the bill. (N.J.A.C. 14:3-6.1(b))
- (18) When the meter is not located inside the customer's building but outside in a meter pit, the customer shall not make connections or alterations inside the meter pit. All such connections are to be made outside of the meter pit on the customer's side of the meter. Failure to comply with this requirement will be considered tampering with facilities of the Company and the customer will be subject to charges for repairs to damaged equipment and/or discontinuance of service. The Company has certain rights under the law to obtain the cessation of acts constituting theft of service that have been committed in violation of N.J.S.A. 2C:20-8, as well as complete restitution for any losses or damages it has suffered as a result of said acts. Customers who tamper with Company property to illegally restore service after being shut off for nonpayment or any other reason under N.J.A.C. 14:3-3A et seq. may be subject to fees and responsible for payment of any resulting damages.
- (19) When the customer's usage is obtained through an electronic ("encoder") read, that usage shall be deemed actual. (N.J.A.C. 14:3-7.9(b)) No adjustment shall be made for a meter that is found to be registering less than 100 percent except in the case of meter tampering, non-registering meters or in circumstances in which the customer should reasonably have known that the bill did not reflect the actual usage. (N.J.A.C. 14:3-4.6(d))

FORM OF BILL FOR METERED SERVICE

Bills rendered must contain the following information: (a) the meter readings at the beginning and end of the billing period; (b) the dates on which the meter is read; (c) the number and kind of units measured; (d) identification of applicable rate schedule or statement that the applicable rate schedule will be furnished upon request; (e) the amount of the bill; (f) a distinctive marking to indicate an estimated, averaged, or remote meter index and web address and telephone number where the customer can obtain a description of the method used; (g) an explanation or statement of any conversion from meter reading to billing units or any other calculations or factors used in determining the bill; and (h) the gross receipts and franchise tax statement. - 1- Inquiry for a water service connection may be made by mail, telephone (888.237.1333) or via the Company's website at [www.amwater.com/njaw](http://www.amwater.com/njaw), and the Company will provide and submit to the applicant, if necessary, any and all forms to be filled out and signed by the owner, or their agents, for the premises to be supplied, including the identity of the customer of record.
- 2- Such inquiry shall be made a reasonable time before required to obtain the installation of service lines and accessories by the Company, as hereinafter defined, for new buildings and premises not previously supplied.
- 3- Separate inquiry shall be made for each premise and for each type of water service requested to be furnished (*i.e.* consumptive, irrigation, construction, etc.).
- 4- Water connections shall be made by the Company subject to the prior existence of an adequately sized distribution main abutting the property or premises to be served. The acceptance of such inquiries shall in no way obligate the company to extend its distribution mains to abut the property or premises except as hereinafter provided.
- 5- The connection shall be in accordance with the applicable laws including but not limited to those of the BPU, DEP and all federal, state and local agencies.
- 6- Inquiry may also be made for a water connection where water service is not immediately desired. The Company may require a special form of agreement pursuant to which the Company shall agree to provide and install the water connection and shall require the applicant to make an advance payment equal to the cost of the water connection when water service is ultimately supplied through the service line.
- 7- Company is not obligated to install more than one service and meter for each property or premises. Furthermore, in those instances where more than one service is requested the company reserves the right to recapture all costs associated with the additional service(s).

  - 8.ii. Customers in default in the payment of a bill may be required to furnish a deposit or increase their existing deposit in an amount sufficient to secure the payment of future bills. A grant from the H2O Help to Others Program may be awarded to cover a portion or all of the customer's outstanding bill based on the customer's ability to pay, income level and the availability of funds in the program. Through this program, the Company will provide a rate reduction amounting to up to 20% of the customer's monthly bill. Customers who need help and qualify for the Low Income Payment Program should call the Dollar Energy Fund toll free number at 1-888-282-6816 or any subsequent program administrator whose contact information may be found on the Company's web site.
- 4- The customer bill reductions provided for under the Low Income Payment Program are accounted for as revenue reduction adjustments.

SERVICE AND CONNECTING LINES

Company Side – Service Lines

- 1- The Company is responsible for the installation and maintenance of the service line. (N.J.A.C. 14 :3-8.1 et seq. and N.J.A.C. 14 :3-10.1 et seq.)
- 2- Only employees of the Company or persons duly authorized to do so by the Company are permitted to operate or otherwise access the curb stop.
- 3- No service line shall be used to supply more than one customer unless authorized by the Company.
- 4- Where two or more customers are supplied through a single service line, the customers must provide a suitable location(s) for a separate meter that will be dedicated to each customer. The piping of the building must be so arranged that each customer can be supplied through an independent meter, shut off valve and piping system as may be required by the Company. The meter pit or vault shall be installed at a location acceptable to the express approval of the Water Company.
- 5- No single building or single group of buildings in one common enclosure and under one ownership shall be supplied by more than one service line, unless authorized by the Company.

Customer Side – Connecting Lines

- 6- A connecting line shall be installed by the customer at customer's expense. It is the property of, and is to be maintained and kept in good repair by, the customer. The connecting line should be maintained in a condition conducive for the Company to perform the services required to serve the customer. If the connecting pipe is not so maintained, any failure of this pipe following the operation of the curb stop by the Company will be the responsibility of the customer. While performing its duties, if the Company notices that the connecting pipe or other customer owned and maintained appurtenances appear to be in poor condition, the Company will attempt to notify the customer of such, including that the customer may desire to contact a licensed plumber for a professional evaluation and/or repair of the connecting pipe and appurtenances.
- 7- Connecting lines should be installed, without sharp bends, at right angles to the line of the street and shall be installed in the trench not less than 3-1/2 feet in depth to avoid damage and possible interruption to service caused by freezing. Other utility service lines shall not be installed in the same trench as the connecting line.
- 8- No attachment shall be made to the connecting line between the curb stop and the meter except as otherwise authorized by the Company.
- 9- Connecting lines should not be less than ¾ inch in inside diameter.
- 10- A customer must install a water pressure reducing valve where required by plumbing code. If a water pressure reducing valve is required to be installed, the customer must install a pressure relief valve (collectively both are referred to as the "Valves"). In all cases, the costs of installation and maintenance of the Valves shall be borne by the customer. The customer shall own and be obligated to maintain the Valves. The Company will not be liable for damage due to meter failures if the customer is located in a high pressure zone and does not have a pressure reducing valve or has a pressure reducing valve downstream from a water meter that is installed inside the premises.  
  
Any pressure reducing valve will be located on the downstream side of the meter if the meter is located outside of the customer's premises and on the upstream side of the meter, if the meter is located inside of the customer's premises. In any event, a pressure reducing valve must be located inside of the customer's premises. In all cases, a pressure release valve must be located on the downstream side of the meter, and inside the customer's premises, irrespective of whether the meter is located inside or outside of the premises.
- 11- The customer is required to make all changes in the connecting line due to changes in grade, relocation of mains, or other causes only if such changes are mandated by a municipality, county, state or other governmental body.

- 7- In any premises where an auxiliary water source is available, the pipes carrying water from the mains of the Company are required to be marked in some distinctive manner for ready identification.

EMERGENCY RESPONSES DUE TO EXTRAORDINARY DEMAND AND/OR DIMINISHED SUPPLY (Continued)

- 4- The Company will endeavor to provide a regular and uninterrupted supply of water through its facilities. However, if because of emergencies beyond the control of the Company, including governmental mandate, service is interrupted, irregular, defective or fails, the Company will not be liable for damages or inconvenience resulting there from. In the event of an extraordinary demand and/or diminished supply, or when operational issues make such actions desirable, including, among other things, protecting the integrity of the system and permit conditions, the Company may restrict the use of water whenever the public welfare may require it and, if necessary, may shut off the water in its mains and pipes. In such cases the Company shall advise its customers by placing a prominent advertisement detailing the conditions and restrictions in a newspaper of general circulation in the utility service area. The notice will state the purpose and probable duration of the restriction or discontinuance. Failure to provide regular and uninterrupted service due to breakdowns is covered under other sections of this tariff.
- 5- The Company may restrict water service during certain periods, where the Company advises the Board of Public Utilities, in order to protect the public water supply, or otherwise to comply with any regulations, orders or decrees issued by the Governor of New Jersey or the Department of Environmental Protection, or any successor agency or department pursuant to the Water Supply Management Act, or other statutes or regulations of the state or federal government. Such interruptions or restrictions shall be reported to the Department of Environmental Protection, if necessary, and the Board by each utility by the speediest means of communications available, followed by a detailed written report, pursuant to the provisions of N.J.A.C. 14:3-3.7(e) et seq., within one week. Thereafter the utility shall provide weekly reports for the duration of the emergency.
- 6- When the supply of water to individual customers is to be discontinued or curtailed for the customer's failure to comply with emergency water restrictions imposed because of extraordinary demand or diminished supply, the Company shall advise such customer(s) by placing a door tag on the front door of the home of the individual(s) in violation of the restrictions, at least twenty-four (24) hours prior to discontinuance or curtailment, or by giving another form of notice acceptable to the Board. The Company will advise business and commercial customers, in writing, by mailing a notice to the customers' billing address. In the case of door tags, they shall be sequentially numbered and include the date, time and nature of the violation and the procedure for restoration of service. All such notices shall be accounted for by the utility.

However, if service shall be interrupted, irregular, or defective, or fail because of breakdown or emergency, the Company will not be liable for damage, inconvenience or lost income resulting there from.
- 2- A customer's responsibility to pay for water service continues from the time service is commenced, pursuant to his/her application, until written notice is received by the Company of a change of ownership or occupancy of the premises or written notice is received by the Company to discontinue the applicable service. Upon receipt of such notice, the Company will arrange for a final meter reading and billing. No allowance will be made in case of non-occupancy, unless the Company is notified in writing as stated above.

When the supply is to be interrupted or curtailed, the Company will endeavor to give notice.
- 4- The Company does not undertake to supply any uniform quality of water for special purposes, such as laboratories, manufacturing or processing plants, swimming pools, bleaching or dyeing plants, or laundries. - 7- The Company will not be liable for any loss, injury, casualty, or damage resulting from the supply or use of water service, or from the presence or operation of the Company's structures, equipment, pipes, appliances or devices on the customer's premises.

Notwithstanding the foregoing, the Company may grant an exception to this rule on a case by case basis.
- 15- The Company maintains and repairs meters except in case of misuse or damage by the customer or the customer's invitees, agents, representatives or contractors, in which case the Company shall charge the customer for repairing and replacing the meter, said charge to be based on the costs related to the removing, repairing, replacing and/or resetting the meter. The charge will be made in accordance with Rate Schedule P-2.

SPECIAL PROVISIONS

- 1- Residential service may not be discontinued for non-payment for a period of up to two months if a medical emergency exists within the premises and which would be aggravated by the shut off so long as the customer provides the Company with reasonable proof of his or her inability to pay and a physician's written statement as to the existence of the emergency, its nature and probable duration, and that termination of service will aggravate the medical emergency. This period of non-discontinuance may be extended as set forth in N.J.A.C. 14:3-3A.2(j). Notwithstanding the foregoing, the customer remains liable to the Company for the payment of services rendered, subject to the provisions of N.J.A.C. 14:3-7.6, at the end of the period of medical emergency. (N.J.A.C. 14:3-3A.2(i)4)
- 2- The utility shall use its best efforts to provide copies of the discontinuance notice to all tenants. In addition, the utility shall provide the tenant(s) with a fifteen (15) day written notice, which shall be hand delivered, mailed, or posted in a conspicuous area of the premises and in the common areas of multiple family premises. N.J.A.C. 14:3-3A.6.(a). If a utility uses posting as the method of notice, each utility shall use its best efforts to also place a copy of the notice on each tenant's car windshield or under the door of each tenant's dwelling. In the case of tenants of single and two-family dwellings, each tenant shall also be provided with a 15-day individual notice. Each utility shall offer the tenant(s) continued service to be billed to the tenant(s) unless the utility demonstrates that such billing is not feasible. The continuation of service to a tenant shall not be conditioned upon payment by the tenant of any outstanding bills due upon the account of any other person. The utility shall not be held to the requirements of this provision if the existence of a landlord-tenant relationship could not be reasonably ascertained. 14:3-3A.6.(b).
- 3- The Company shall have the right to suspend or curtail or discontinue service for any of the following reasons (N.J.A.C. 14:3-3A.1):
  1. For the purpose of making permanent or temporary repairs, changes or improvement in any part of its system;
  2. For compliance in good faith with any governmental order or directive, regardless of whether such order or directive subsequently may be held to be invalid;
  3. For non-payment of a valid bill due for service furnished at a present or previous location, in accordance with N.J.A.C. 14:3-3A.2. However, non-payment for business service shall not be a reason for discontinuance of residence service except in cases of diversion of service pursuant to N.J.A.C. 14:3-7.16;
  4. For nonpayment of a deposit, in accordance with N.J.A.C. 14: 3-3A.9;

    - (v) providing service to others without approval of the Company;
    - (vi) refusal to contract for service where such contract is required;
    - (viii) connecting and operating equipment in such manner as to produce disturbing effects on the service of the Company or other customers;
    - (ix) failure of the customer to comply with any of these Standard Terms and Conditions;
    - (x) where the condition of the customer's installation presents a hazard to life or property; or
    - (xi) failure of a customer to repair any faulty facility of the customer.

SPECIAL PROVISIONS (Continued)

- 4- Service shall be restored within 12 hours upon proper application when: 1. all of the conditions under which service was discontinued are corrected; and 2. payment of all charges due is received at the utility, or at an authorized payment center and the utility has received notice of the payment. Any other provision notwithstanding, the utility shall restore service within 12 hours if there is a complaint involving such matters before the Board and Board staff so directs the utility.
- 5- If more than one meter test is made within a twelve (12) month period at the request of the customer and the meter is found to be accurate, the Company shall charge the customer for this meter test at the rate set forth in Rate Schedule P-2 for each additional test. If the meter is found to register fast by more than one and one-half percent (1.5%) of the water passed through the meter at full capacity, the customer will not be charged for the test.
- 6- If a meter is found to be registering less than 100 percent of the service provided, the utility shall not adjust the charges retrospectively or require the customer to repay the amount undercharged, except if: 1) the meter was tampered with; 2) the meter failed to register at all; or 3) the circumstances are such that the customer should reasonably have known that the bill did not reflect the actual usage. If a meter is found to be registering less than 100 percent of the service provided because of theft or tampering, the utility may require immediate payment of the amount the customer was undercharged. In cases of a charge to a customer's account under 2 or 3 above, the customer shall be allowed to amortize the payments for a period of time equal to that period of time during which the customer was undercharged.
- 7- Rules concerning estimated bills for residential customers are as follows: (1) The Company shall maintain a regular meter reading schedule and make a reasonable effort to read all meters, (2) The Company, upon request, must make available to all customers a postage-paid business reply card on which the customer may mark the meter reading. Said card shall have appropriate explanation. The utility must permit the customer to telephone the meter reading to the utility. The customer reading is to be used in lieu of an estimated reading, provided the reading is received in time for billing, (3) When the Company estimates an account for four consecutive billing periods (monthly accounts), or two consecutive billing periods (bi-monthly and quarterly accounts), the Company must initiate a program to mail a notice marked "Important Notice" to the customer on the fifth and seventh months explaining that a meter reading must be obtained and said notice must explain the penalty for failure to complete an actual meter reading. After all reasonable means to obtain a meter reading have been exhausted, the Company may discontinue service provided at least eight months have passed since the last meter reading was obtained, the Board of Public Utilities has been so notified, and the customer has been properly notified by prior mailing. If service is discontinued and subsequently restored, the utility may charge a reconnection charge equal to the reconnection charge for restoring service after discontinuance for non-payment. (4) The Company must submit to the Board of Public Utilities a statement detailing their estimating procedures. (5) An estimated bill must be clearly designated as such. (6) If low estimates result in a customer receiving an actual bill that is at least twenty five percent (25%) greater than the prior estimated bill, the Company shall allow the customer to amortize the excess amount. The amortization will be in equal installments over a period of time equal to the period when no actual meter reading was taken by the customer or the Company. (7) Annually, the Company shall notify all customers of their rights to amortize as set forth in N.J.A.C. 14:3-7.2.

- 9- A customer having two or more meters (excluding meters for Service to Privately Owned Fire Protection Systems under applicable Rate Schedules set forth in the tariff) on the same premises will be charged at the tariff rate for the quantity of water equivalent to the sum registered on all of the meters on the premises, subject to a facilities charge equal to the sum of the facilities charges for each meter. DEFINITIONS:

UNINTERRUPTIBLE SERVICE

Uninterruptible service is water service to be provided to customers in quantities specified in Appendix A herein or Schedule A of the Water Resale and Treatment Agreement. The Annual Purchase Requirement is the minimum total volume of water per year which will be purchased take-or-pay by the customer from the Company. The Company agrees to provide to the customer the quantity specified in Appendix A herein or Schedule A of the Water Resale and Treatment Agreement unconditionally, except to the extent that: (1) the limitations of Appendix A herein or Schedule A of the Water Resale and Treatment Agreement apply to restrict the quantity of water which the customer may take on a maximum monthly, maximum daily and peak hourly basis; and, (2) in those cases where the contracts have been executed, the provisions of Section 5 of the Agreement, regarding force majeure events, may apply under certain circumstances. The rate may be found on Rate Schedule E of the present tariff.

INTERRUPTIBLE SERVICE

Interruptible service means a supply of water, to the extent that the Company in its reasonable judgment determines that it has excess water available above the Annual Purchase Period Limitations specified in Appendix A herein or Schedule A of the Water Resale and Treatment Agreement, which may be provided to the customer: (1) to meet extraordinary consumer demand requirements; (2) for occasional, temporary, or emergent needs; or (3) in such other circumstances as shall be agreed upon by the Company and the customer. The rate may be found on Rate Schedule E of the present tariff.

TERMS OF PAYMENT

Valid bills for sales for resale service furnished under this schedule will be rendered monthly, in arrears, and are due 30 days after the invoice date. All bills shall list a due date. **TERMS OF PAYMENT**

The following plan for payment of the Minimum Service Charge is offered as a convenience to our customers and does not relieve the customer of the liability to pay the entire Minimum Service Charge if sewer service is rendered for only a portion of the year.

For monthly billed customers, one-twelfth of the Minimum Service Charge shall be due and payable upon receipt of the regular bill for sewer service. For quarterly billed customers, one-third of the Minimum Service Charge shall be due and payable upon receipt of the March billing, the June billing and the September billing for sewer service.

If the Company determines by application of the following criteria that the customer's past record of payments does not warrant application of this payment plan, the Company may require payment of the entire service charge at one time rather than in installments.

1. If a customer has been terminated at least once in the past two years for non-payment of a bill for sewer service; or,
2. If a customer receives three (3) Final Reminder Notices during a twelve month period.

In addition, in the case of a reactivated account, the customer will be required to pay any installment(s) which would have been billed if the account had been active as of January 1. A new account will be required to pay a pro-rata share of the Minimum Service Charge based on the period of service to be rendered during that year.

Usage charges based upon meter readings shall be billed in arrears, on a quarterly or monthly basis at the option of the Company. Whenever service is established or is discontinued, all applicable fixed charges shall be prorated to the date of establishment or discontinuance of service.

Valid bills for service furnished under this schedule are due fifteen (15) days from the date of the postmark on the envelope in which the bill was transmitted. All bills shall list a due date.
