1005 N Norris Street
Clovis, NM 88101

or **mail the application to:**

New Mexico American Water
PO Box 430
Clovis, NM 88102-0430

DO NOT MAIL WITH PAYMENT

New Mexico American Water (NMAW) is offering landscape rebates of \$0.40 per square foot to those who wish to remove high water using turf (grass lawn). Turfed areas between 500 square feet and 2,000 square feet are eligible for the rebate. Areas where turf has been removed must be replaced with desert landscaping, gravel or other groundcover -- bare ground is not allowed. All plants installed must be low water using plants and be listed as "Low" or "Low+" water use in the "The Complete How To Guide to Xeriscape." This guide can be found at <http://www.ose.state.nm.us/water-info/conservation/h2o-outreach.html> or at the local NMAW office. Applicants are encouraged to use good Xeriscaping principals. Applicant must be the property owner or have the written permission of the property owner. Rebates are only for NMAW account holders and who use NMAW to water their turf. This program is designed to encourage customers to permanently reduce outdoor water use. Applicants whose applications are approved must keep the landscaping low water use for as long as applicant continues to own or reside at that address, whichever is longer. Rebates are issued on a first come first served basis and funds are limited. This program may be changed or discontinued without prior notice.

INSTRUCTIONS:

1. Submit completed application with pictures, site plan, and measurements of turfed area.
2. Allow 2-3 weeks for NMAW to contact you to schedule a preliminary **site inspection before starting work to determine eligibility.**
3. After obtaining confirmation of eligibility from New Mexico American Water, proceed with landscape renovation. Turf removal must be completed within 4 months of NMAW approval.
4. Contact NMAW at (575) 763-5538 to schedule a final inspection.
5. Provide NMAW with post renovation pictures.
