

Your Emergency Storm Kit

Missouri American Water teams work hard every day to provide the quality, reliable water service that you depend upon. Water service outages are uncommon, but household planning for storms and natural disasters is always a good idea.

The following storm kit contents are based on recommendations from the U.S. Centers for Disease Control and Prevention.

- **Water** - three gallons for each person who would use the kit and an additional four gallons per person or pet for use if you are confined to your home. (This is based on one gallon per person per day)
- **Food** - a three-day supply in the kit and at least an additional four-day supply per person or pet for use at home. Non-perishable foods that don't require heating are a good idea.
- **Special items for infants and seniors, disabled persons or anyone with serious allergies** - including special foods, denture items, extra eyeglasses, hearing aid batteries, prescription and non-prescription medications that are regularly used, inhalers and other essential equipment.
