Background:

On July 14, 2016, California American Water filed A.15-07-019 for authorization to modify conservation and rationing rules, rate design, and other related matters for the Monterey District. On December 8, 2016, the California Public Utilities Commission (CPUC) issued D.16-12-003 calling for several changes as outlined below.

Purpose:

The purpose of this Advice Letter is to comply with Ordering Paragraph 3 of D.16-12-003 which states:

California-American Water Company (Cal-Am) shall, within 60 days of the date of this decision, file a Tier 2 advice letter in conformance with General Order 96-B. The advice letter shall include tariffs for the Monterey District that:

- (a) eliminate the residential allotment system,*
- (b) recover 30 percent of residential customer fixed costs in the residential monthly service charge,*
- (c) use the temporary modification to standard residential meter ratios recommended by Cal-Am for recovery of the increased percentage of fixed costs in the residential monthly service charge,*
- (d) use the standardized residential rate design recommended by Cal-Am in which each customer gets the same amount of water in each tier at the tier break points and modified block widths,*

(e) reduce the multiple of Tier 5 to Tier 1 residential rates to 8 as proposed by Cal-Am,
(f) use 2015 residential consumption data for rate development,
(g) apply a 30 percent discount from the monthly service charge and the rates in Tier 1 through 4 for customers in the low-income ratepayer assistance program, and
(h) move 8.4 percent of forecast revenue collection from residential to non-residential customers.

Cal-Am shall, and parties may, as soon as feasible, recommend elimination of the temporary modification to the standard residential meter ratios for recovery of the increased percentage of fixed costs in the residential monthly service charge, and shall do so by the time of Cal-Am's next general rate case (after Application 16-07-002) or explain in that general rate case why not. When the rates are to become effective, Cal-Am shall provide customer notice and explanation of the rate changes, with the notice first reviewed by the Commission's Public Advisor.

Request:

California American Water requests that the tariffs included in this advice letter are reviewed and approved in accordance with D.16-12-003. California American Water has incorporated the changes outlined in Ordering Paragraph 3 and is in the process of drafting a notice for review by the Commission's Public Advisor Office.

Tier Designation:

Pursuant to D.16-12-003, this advice letter is submitted with a Tier 2 designation.

Effective Date:

California American requests an effective date of March 1, 2017.

RESPONSE OR PROTEST²

Anyone may submit a response or protest for this AL. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds³ are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or

¹ G.O. 96-B, General Rule 7.4.1

² G.O. 96-B, General Rule 7.4.2

6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require relitigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

DWA must receive a response or protest via email (or postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform DWA, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

REPLIES⁴

The utility shall reply to each protest and may reply to any response. Any reply must be received by DWA within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

General Items:

1. The boundaries in which the above rates apply are as set forth in the Preliminary Statement and delineated on the Tariff Service Area Maps filed as a part of these tariff schedules.
2. Any residential customer who has been required to install a Residential Fire Sprinkler System (R.F.S.S.) at their place of residence by local fire ordinances will be allowed to have their monthly service charge reduced by one meter size, provided it has been requested by the customer and verified by the Company that the lower size of meter would be large enough to provide adequate service to the residence. The R.F.S.S. Service is not considered a fire service by the Company, but is considered an oversized general metered service and therefore, only the rules and conditions of service for general metered service apply.
3. Qualifying low-income customers can receive a discount on their bill. Customers must apply with the Company for acceptance into the low-income program. For additional details, please see Tariff Schedule CA-LIRA.

- c. A monthly credit entry to record the amounts recovered from residential customers.
- d. A debit or credit entry equal to interest on the balance in the account at the beginning of the month and half the balance after the above entries, at a rate equal to one-twelfth of the rate on 90 day non-financial Commercial Paper, as reported and updated monthly in the Federal Reserve Statistical Release, H.15 or its successor.
- e. The monthly meter surcharges noted below will cease at the earlier of 60-month from the Commission approval date of the required tier 2 advice letter or once the balance in the account reaches zero
