ADVICE LETTER NO. 1179-A

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for review this advice letter, including the following tariff sheets applicable to its San Diego County District, which are attached hereto:

<u>C.P.U.C. Sheet No.</u>	<u>Title of Sheet</u>	<u>Canceling Sheet No.</u>
8699-W	Schedule No. SD-1 (Continued) San Diego County District Tariff Area GENERAL METERED SERVICE	8689-W
8700-W	TABLE OF CONTENTS (Continued) (Page 3)	8697-W
8701-W	TABLE OF CONTENTS (Page 1)	8698-W

Purpose:

In accordance with Section 7.3.1 of the Water Industry Rules under General Order (GO) 96-B and Section 454 of the Public Utilities Code, California American Water is seeking authority to offset purchased water expenses it incurs from the City of San Diego, the water supplier for its San Diego County District. The City of San Diego increased its wholesale rates to California American Water effective August 1, 2017. California American Water requests that the full increase be offset to account for the annual change in purchased water costs.

In accordance with Section 4.3 of General Order No. 96-B, a copy of this advice letter is being sent to those entities listed in Exhibit A.

Background:

California American Water serves approximately 21,100 customers in its San Diego County District. Areas served include Coronado, Imperial Beach, portions of the City of San Diego, and certain areas in San Diego County.

The offset increase is necessitated by the City of San Diego's increase of its wholesale water rates from \$4.12 per hundred cubic feet (ccf) to \$4.32 per ccf. This water rate increase results in a \$951,986 annual increase in purchased water expenses to California American Water, plus a corresponding \$5,685 increase in uncollectibles, for a total expense increase of \$957,672. This increase is directly related to water consumption and thus should be applied to the quantity rate.

The resulting surcharge will increase by \$0.2090 from \$0.7413 to \$0.9503 per ccf, or \$0.1270 per 100 gallons.

The offset requested represents an annual increase of \$957,672 or 3.08% over the latest revenue requirement provided to the Commission in General Rate Case 2015 Decision. In accordance with Rule 4.2 of GO 96-B and Section 3.2 of the Water Industry Rules in GO 96-B for processing expense offset rate increases, California American Water shall include a bill text message providing the amount of the increase, expressed in dollars and percentages, in the first bill that includes the increased surcharge.

Request:

California American Water Company requests authorization to implement a purchased water surcharge totaling \$0.9503 per ccf.

The actions requested in this advice letter are not now the subject of any formal filings with the Commission, including a formal complaint, nor action in any court of law.

This filing will not cause the withdrawal of service, nor conflict with other schedules or rules.

Tier Designation:

This advice letter is submitted with a Tier 1 designation.

Effective Date:

California American requests an effective date of November 6, 2017.

The total amount will be recovered from all classes of customers.

8. Per Advice Letter 1179-A, a surcharge is applied to each bill to offset increases in purchased water costs imposed by the City of San Diego. This offset results in a needed revenue increase of \$957,672 or 3.08%. The surcharge of \$0.1270 per 100 gallons is added to the quantity rate effective November 6, 2017. (C)
