

# COVID-19 RESPONSE

## 2020 Community Impact Report

American Water has long believed in supporting and enhancing the communities where we live, work, and operate. In 2020, with advent of the COVID-19 public health emergency, the American Water Charitable Foundation's commitment to communities served by American Water meant that much more. In addition to our support of Feeding America, we launched a new grant program specific to **coronavirus relief efforts**, including organizations focused on food assistance, social services, families, animal welfare and mental health. Giving back is part of who we are.

### 2020 RESULTS

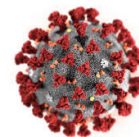

#### \$50,000 Feeding America

With an additional \$50,000 donation from American Water, a \$100,000 grant was provided to Feeding America to support food banks across the country.

#### \$305,000 COVID-19 Relief Fund

To ensure grants were meaningful and impactful, American Water's regulated and market-based businesses brought forth applicants for consideration.

### WE APPLAUD ALL 85 GRANTEES

for caring for their communities during these unprecedented times. In total, we supported 85 public charities. Here's a small sampling of organizations we touched...
