

## SANITARY SEWER SERVICE CONNECTION AGREEMENT

The undersigned Applicant requests Illinois-American Water Company, hereinafter referred to as "Company", to provide sanitary sewer service at the premises described as follows:

and agrees to accept and pay for service in accordance with the Company's rates, rules, regulations and conditions of service filed with the Illinois Commerce Commission.

Illinois-American shall have the right to assign all of its rights and obligations under this Agreement to any entity which succeeds to or acquires substantially all of Illinois-American's operations or assets covered by this Agreement. Any such assignment by Illinois American shall relieve, release, and discharge Illinois-American from any further duty or responsibility under this Agreement.

Applicant agrees to pay a one time charge based on an estimated number of P.E. (Population Equivalent) of \_\_\_\_\_ in the amount of \$ \* \_\_\_\_\_ for sanitary sewer plant capacity and further acknowledges that if there is a significant change in the utilization or facilities from that represented by the Applicant or the engineering plans, the Company has the right to re-evaluate the estimated number of P.E. based on the actual water consumption after one year of service and modify the one time charge for sanitary sewer plant capacity accordingly.

(\*Fees Payable to the \_\_\_\_\_ . Proof of payment to be provided by Applicant.)

The Applicant agrees to install the sewer service connection in accordance with engineering plans and specifications submitted by the Applicant and approved by the Company in accordance with Illinois-American's "Development and Construction Standards Manual", or relevant portion thereof, latest revision, copy of which is attached to and made part hereof. Applicant further agrees to do what is necessary to keep any of the Company's existing water or sanitary sewer facilities located within the premises or within the adjoining road right of way at proper elevation relative to surrounding grade and remove debris from said facilities as necessary for a period of one year from the date after final landscaping has been completed at the premises. The Applicant agrees to maintain at its own expense in good condition his portion of the sanitary sewer service connection located within the parcel of land previously described. Applicant further agrees not to make any connection which would allow storm water into the sanitary sewer. The Company owns and shall maintain at the Company's expense all mains and other facilities used in rendering service to the Applicant within Public Rights of Way and as defined in its tariffs

The Company agrees to make refunds against the sanitary sewer to Applicant in accordance with its tariffs and as indicated below.

The service connection between the main and the Applicant's property will be as follows:

Sanitary sewer connection

\_\_\_\_\_ each--- LF of \_\_\_\_\_ with connection to existing manhole.

Estimated Refund: \$ \_\_\_\_\_

Other terms and requirements:

Plan Review Fee: \$ \_\_\_\_\_

Applicant requests service under this Agreement to begin on Applicant agrees to accept the responsibility of the monthly utility bill(s), from the day of installation, of the sewer service line. The Agreement shall be effective upon execution below on behalf of the Applicant and on behalf of the Company.
