Special Provisions

A few hydrants are connected to mains by a “special connection.” A “special connection” exists when a customer and the Company entered into a service contract in which the customer agreed to maintain an unmetered water line from a Company main to the customer’s service line. If the Company has reason to believe water from a special connection is being used for purposes other than fire protection, including that the connection or line is leaking, the Company may install a meter and charge for usage under this tariff. The Company may require the customer to pay for the meter and its installation if:

- (1) the Company gives the customer written notice of the usage problem, requests that the customer correct the problem, and informs the customer that failure to correct the problem within 90 days could result in liability of the customer for the cost of installing a meter to monitor usage,

CLASSIFICATION OF SERVICE
SERVICE CLASSIFICATION NO. 5

Applicable

Applicable to the entire Service Territory of Kentucky-American Water Company.

Availability of Service

Available for Water Used for Construction, Street Washing, Pool Filling, and Similar Purposes.

Rates

Where a meter is installed on a fire hydrant or on a temporary service connection for construction, street washing, pool filling, and similar purposes, the minimum payment for water shall be the monthly service charge for general water service, payable in advance based upon the size of the meter installed.

If more than one fire hydrant or temporary service connection is used, the service charge is to apply to each such hydrant or temporary service connection so used.

The Company may require an application to be signed and either the service charge paid in advance or, at the option of the Company, a meter deposit made, and the account handled in the same manner as any other metered account. This service charge will not entitle the Customer to any water and all water used shall be billed at the meter rate schedule. In addition to such charges the Customer shall pay all reasonable costs incurred in connection with the installation and removal of the meter.

HIDDEN LEAK ADJUSTMENT RATE

Applicable

Applicable to entire Service Territory of Kentucky-American Water Company.

Availability of Service

Available for Residential and Commercial customers.

Rates

A charge of twenty-five (25) percent of the applicable tariff will be applied to all water usage determined to be the result of a hidden underground leak.

Terms and Conditions

A hidden underground leak is defined as a leak in the customer service line between the meter and the premises. Hidden underground leak adjustments will be granted to residential and commercial customers. The customer must provide a plumber's statement or list of materials showing that the leak has been repaired. After verification of repairs by the Water Company, the bill will be adjusted by comparing the usage during the leak billing period to the average usage for the past six billing periods. A reasonable estimate will be used in cases when six prior periods of information do not exist. The excess usage will be billed at the rate specified above. During the lifetime of a water service line only two leak adjustments will be permitted. Each adjustment may cover a maximum of two billing periods. Before a third adjustment can be considered, the entire water service line from the meter box to the premises must be replaced. Plastic pipe for repair of underground water service lines must be certified to withstand a working pressure of 160 pounds per square inch or greater.

APPLICABILITY OF RIDER

Applicable to Residential, Commercial, Industrial, Other Public Authority, Sales for Resale, Public and Private Fire Service and Hydrant customers.

CALCULATION OF QUALIFIED INFRASTRUCTURE PROGRAM RIDER REVENUE REQUIREMENT

(N) The QIP rate base in any forecasted period will be calculated in a manner consistent with 807
(N) KAR 5:001, Section 16(6)(c). The QIP Rider Revenue Requirement includes the following:

- a. QIP-eligible Plant In-Service not included in base water rates minus the associated QIP-related accumulated depreciation and accumulated deferred income taxes;
- b. Retirement and removal of plant related to QIP-eligible construction;
- c. Return on the net QIP-eligible plant in-service at the overall rate of return on capital authorized in the Company’s latest base water rate case, grossed up for federal and state income taxes;
- d. Depreciation expense on the QIP-eligible Plant In-Service less retirement and removals;
- e. Property taxes related to the QIP.

QIP ELIGIBLE UTILITY PLANT:

Distribution Infrastructure – distribution and transmission system structures and improvements, mains and valves installed as replacements for existing facilities; hydrants, distribution tanks; services, meters and meter installations, power generation and pumping equipment installed as replacements for existing facilities; unreimbursed funds related to capital projects to relocate facilities required by governmental infrastructure projects.

Water Treatment Infrastructure – source of supply and water treatment structures, pipe and equipment including sampling equipment, SCADA equipment, power generation and pumping equipment installed as replacements for existing facilities.

RATES

All customers subject to this QIP Rider receiving water service shall be assessed a monthly QIP Rider charge in addition to the service charge, consumption charge or monthly fee component of their applicable rate schedule that will enable the Company to complete the Qualified Infrastructure Program.

The QIP Rider will be updated annually and subsequently adjusted to true-up the projected costs with the actual costs. The initial annual prospective QIP period will be the first full twelve month period following the Forecast Test Period utilized by the Commission in establishing Base Rates of the Company in its prior Base Rate Case proceeding. A filing with the projected costs for each twelve month QIP period will be submitted annually at least 90 days prior to the commencement of that QIP period, to become effective with the first day of the QIP period. The Company will submit a balancing adjustment annually no later than 90 days after the end of each 12 month QIP period to true-up the projected program costs and revenues, with the actuals for the same period. The balancing adjustment true-up to the rider will become effective 180 days after the end of the QIP period.

The monthly QIP Rider charges for all respective water service classifications will be calculated as a percentage and applied to all water charges including meter fees, volumetric water sales, fire service fees, and public and private hydrant fees from the Company’s most recent base rate case, but excluding any other surcharge or add-on taxes. It will be listed as a separate line item on the customer bill. The QIP percentage shall be calculated on an annual prospective basis. The QIP Rider charge effective on and after the effective date is:

(I) 2.14%

(I) signifies increase
