ADVICE LETTER NO. 1318-A

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for filing the following tariff sheets applicable to all Districts which are attached hereto.

Purpose

The purpose of this supplemental advice letter filing is to make the following changes:

- Removed all increases to Private Fire Service and Hydrants, except for those in the Fruitridge Vista service area
- Added Fruitridge Vista Hydrant tariff
- Added Hillview – Measured Service for Trucks tariff
- Modified Preliminary Statement AO – GRC Interim Rate True-up Memo Account
- Fixed Monterey Non-Residential 2-inch Meter Service Charge
- Added Commercial language back onto the Chualar Tariff
- Updated service area language for Rio Plaza private fire service tariff for consistency

The purpose of this advice letter filing is to implement interim rates in connection with California American Water's 2019 General Rate Case ("GRC"), Application ("A.") 19-07-004, and establish a 2021 GRC Interim Rate Memorandum Account for all California American Water Districts. This request is in compliance with authorizations from the California Public Utilities Commission as detailed in the Rate Case Plan in D. 07-05-062 ("RCP") and the *Administrative Law Judge's Ruling Granting Interim Rates* issued on September 10, 2020.

Background:

California American Water filed A.19-07-004 on July 1, 2019, for a 2021 test year, to increase rates for water and/or wastewater service in each of its districts statewide.

Paragraph 1 of Page 11 of the Rate Case Plan (D.07-05-062) states:

"We conclude that companies experiencing a delay in their GRCs under our new RCP may seek a rate modification, subject to refund as set forth below, via and advice letter.⁶ Our adopted procedure is set forth at II(B) of the RCP. Section II(B) also sets forth the procedure for seeking permission to forego a GRC filing. We will not limit the rate changes sought in these filings to the rate of inflation. However, interim rates under Section 455.2(c), when approved, will be subject to refund and shall be adjusted upward or downward back to the effective date of the interim rates upon the adoption of final rates by the Commission at the conclusion of a GRC scheduled under the RCP. This procedure will only apply during our transition to the new RCP when the new RCP plan delays a water utility's GRC beyond the three-year cycle set forth in Section 455.2(c). We decline to adopt

⁶ We do not designate this advice letter under any "Tier."

CWA's suggestion to permit utilities to file applications. Applications will unduly complicate the RCP schedule and create numerous inefficiencies. Furthermore, the advice letter process addresses all of CWA's concerns."

Appendix A, Section II. B. of the RCP (page A-2) further provides:

"A water utility that experiences a delay beyond three-years in filing a GRC application due to the transition to the RCP schedule may seek to implement an interim rate change via an advice letter.

Such filing will not excuse a utility from filing its future GRCs according to the RCP schedule. These interim rates, when approved, will be subject to refund and shall be adjusted upward or downward back to the effective date of the interim rates with the adoption of final rates by the Commission at the conclusion of a GRC scheduled under the RCP.

The procedures herein will only apply during our transition to the RCP in instances when the RCP schedule delays a GRC for any water utility beyond the three-year cycle set forth in Section 455.2."

On April 6, 2020, in compliance with the RCP, California American Water filed a motion requesting interim rates to the extent that the Commission would be unable to issue a decision in A.19-07-004 in time for rates to go into effect on the first day of the test year (January 1, 2021). On September 10, 2020, the *Administrative Law Judge's Ruling Granting Interim Rates* approved California American Water's request as follows:

"IT IS RULED

- 1. California American Water Company must file with the Commission, by Tier 1 Advice Letter, a tariff implementing interim rates for its service territory and establishing a memorandum account to track the difference between the interim rates and the final rates adopted by the Commission in the proceeding pursuant to Public Utilities Code § 455.2 and Decision 07-05-062. The interim rates may become effective no sooner than January 1, 2021."*

Through this filing California American Water incorporates the quantity rates contained in Advice Letter 1315, its 2020 Annual Consumption Adjustment Mechanism ("ACAM") filing for its Monterey service area. The tariffs included in this filing reflect both the ACAM rates and the interim rates for Monterey. The Monterey ACAM rates are also effective January 1, 2021. In order to comply with the requirements of the Phase 3A Settlement Agreement and D.18-05-027, California American Water will file a separate tier 1 advice letter prior to the end of 2020, which will include the Monterey tariffs contained in this filing for rates effective January 1, 2020.

Request:

California American Water requests authorization to establish interim rates in the all California American Water Districts by filing tariffs that increase present rates by 1.2% as set by the Consumer Price Index for All Urban Consumers (CPI-U) as of November 2020 provided by the U.S. Bureau of Labor Statistics.

Tier Designation:

These tariffs are submitted pursuant to General Order No. 96-B and this advice letter is designated as a Tier 1 filing.

Effective Date:

California American Water requests that the tariffs discussed above be made effective January 1, 2021.

Service List:

In accordance with Section 4.3 of General Order No. 96-B, a copy of this advice letter is being sent to those entities listed in Exhibit A.

Protest and Responses:

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds may include the following:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material errors or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:
