ADVICE LETTER NO. 1430

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits this advice letter, including the following attached tariffs applicable to all Service Areas.

Purpose:

The purpose of this advice letter filing is to implement interim rates in connection with California American Water's 2022 General Rate Case ("GRC", Application ("A.") 22-07-001, and establish a 2024 GRC Interim Rate Memorandum Account for all California American Water Districts. This request is in compliance with authorizations from the California Public Utilities Commission as detailed in the Rate Case Plan in D. 07-05-062 ("RCP") and the *Administrative Law Judge's Ruling Granting Interim Rates* issued on October 31, 2023.

Background:

California American Water filed A.22-07-001 on July 1, 2022, for a 2024 test year, to increase rates for water and/or wastewater service in each of its service areas statewide.

Paragraph 1 of Page 11 of the Rate Case Plan (D.07-05-062) states:

"We conclude that companies experiencing a delay in their GRCs under our new RCP may seek a rate modification, subject to refund as set forth below, via and advice letter.¹ Our adopted procedure is set forth at II(B) of the RCP. Section II(B) also sets forth the procedure for seeking permission to forego a GRC filing. We will not limit the rate changes sought in these filings to the rate of inflation. However, interim rates under Section 455.2(c), when approved, will be subject to refund and shall be adjusted upward or downward back to the effective date of the interim rates upon the adoption of final rates by the Commission at the conclusion of a GRC scheduled under the RCP. This procedure will only apply during our transition to the new RCP when the new RCP plan delays a water utility's GRC beyond the three-year cycle set forth in Section 455.2(c). We decline to adopt CWA's suggestion to permit utilities to file applications. Applications will unduly complicate the RCP schedule and create numerous inefficiencies. Furthermore, the advice letter process addresses all of CWA's concerns."

Appendix A, Section II. B. of the RCP (page A-2) further provides:

¹ We do not designate this advice letter under any "Tier."

“A water utility that experiences a delay beyond three-years in filing a GRC application due to the transition to the RCP schedule may seek to implement an interim rate change via an advice letter.

Such filing will not excuse a utility from filing its future GRCs according to the RCP schedule. These interim rates, when approved, will be subject to refund and shall be adjusted upward or downward back to the effective date of the interim rates with the adoption of final rates by the Commission at the conclusion of a GRC scheduled under the RCP.

The procedures herein will only apply during our transition to the RCP in instances when the RCP schedule delays a GRC for any water utility beyond the three-year cycle set forth in Section 455.2.”

On September 1, 2023, in compliance with the RCP, California American Water filed a motion requesting interim rates to the extent that the Commission would be unable to issue a decision in A.22-07-001 in time for rates to go into effect on the first day of the test year (January 1, 2024). On October 31, 2023, the *Administrative Law Judge’s Ruling Granting Interim Rates* approved California American Water’s request as follows:

“IT IS RULED that California-American Water Company shall file with the Commission a Tier 1 advice letter. The advice letter shall detail a tariff implementing interim rates for its service testimony. The advice letter shall also establish a Memorandum Account to track the difference between the interim rates and the final rates adopted by the Commission in this proceeding pursuant to Pub. Util. Code Section 455.2 and Decision 07-05-062. The interim rates shall become effective no sooner than January 1, 2024.”

Through this filing California American Water incorporates the quantity rates contained in Advice Letters 1425 thru 1427, its 2024 Annual Consumption Adjustment Mechanism (“ACAM”) filings and the meter rates contained in AL 1424, the 2024 Water Cost of Capital Mechanism. The tariffs included in this filing reflect both the ACAM rates and the interim rates. The ACAM rates are also effective January 1, 2024.

Request:

California American Water requests authorization to establish interim rates in all California American Water Service Area by filing tariffs that increase present rates by 3.2% as set by the Consumer Price Index for All Urban Consumers (CPI-U) as of October 2023 provided by the U.S. Bureau of Labor Statistics.

Tier Designation:

These tariffs are submitted pursuant to General Order No.96-B and this advice letter is submitted with a Tier 1 designation.

Effective Date:

California American Water requests an effective date of January 1, 2024.

Notice and Service List:

In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically to interested parties having requested such notification. ***Please note that this advice letter will only be distributed electronically.***

PROTEST OR RESPONSES:

Anyone may submit a response or protest for this AL. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds² are:

4. The relief requested in the AL is pending before the Commission in a formal proceeding;
or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require relitigating a prior order of the Commission.
7. A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

WD must receive a response or protest via email (or postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**
