Purpose:

The purpose of this supplemental filing includes the Chrome 6 surcharge special condition from Advice Letter 1277 which was inadvertently omitted from Advice letter 1270-A and approved by Resolution W-5212.

The purpose of this supplemental filing is to update Advice Letter 1270 to comply with Resolution W-5212 to which approved California American Water's requests in Advice Letter 1214, as supplemented, to add its capital expenditures (less accumulated depreciation) of \$10,029,761 to its rate base and recover the associated revenue requirement of \$1,355,287, which includes the associated annual incremental operating expenses of \$8,880 for the Chromium 6 treatment projects in the Northern Division.

California American Water filed AL 1270 to request approval of the 2020 step rates for Northern Division in accordance with Decision (D.) 18-12-021. Advice letter 1270 requests implemented rates for escalation year 2020 be made effective and implemented in accordance with Decision (D.) 18-12-021.

Background:

Submission of these tariffs is made in compliance with Ordering Paragraphs 42 and 43 of D.18-12-021 dated December 13, 2018 which states:

- 42. California-American Water Company (Cal-Am) is directed to file escalation filings for attrition years 2019 and 2020 through appropriate Tier 1 advice letter filings in conformance with General Order 96-B and the advice letter procedures found in Section VII of Appendix A attached to Decision (D.) 07-05-062 for every district where there is a projected decrease in rates. Cal-Am may also file escalation filings for 2019 and 2020 pursuant to these procedures for every district where there is a projected increase in rates. D.07-05-062 requires escalation filings to be filed no later than 45 days prior to the start of the escalation year. In light of the effective date of this decision, any escalation filing for attrition year 2019 shall instead be filed within 90 days from the effective date of this decision and shall be effective 45 days from the date of filing.*
- 43. California-American Water Company is authorized to revise tariff schedules, and to concurrently cancel its present schedules for such service upon the effective date of its 2019 escalation filing. The revision of tariff schedules for authorized rates in 2018 shall be included and subsumed in California-American Water Company's escalation filing for attrition year 2019. The advice letter shall include all calculations and documentation necessary to support the requested rate changes for both authorized 2018 rates and their escalation for 2019.*

Resolution W-5212, issued December 19, 2019, additionally approved California American Water's requests in Advice Letter 1214 to:

- (1) *add its capital expenditures (less accumulated depreciation) of \$10,029,761 to its rate base and recover associated revenue requirement of \$1,355,287 which includes the associated annual incremental operating expenses of \$8,880 for the Chromium 6 treatment projects in the Northern Division;*

On December 23, 2019, California American Water filed advice letter 1277, amending advice letter 1214 requesting authority to implement tariff schedules approved in Resolution W-5212.

Request:

This advice letter filing is to request implementation of the Northern Division - Sacramento and Larkfield's 2020 step increase. By this supplemental filing, California American Water requests authority to implement the tariff schedules attached to this advice letter, which add the additional revenue requirement from advice letter 1277 and Resolution W-5212.

As shown the earnings test and workpapers for the twelve months ended September 30, 2019, the Larkfield district earned a rate of return of 7.88% on a recorded basis and 5.57% on a "pro forma" basis. The most recent authorized rate of return per D.18-03-035 was 7.61% adjusted to 7.63% to match the designated pro forma period.

As shown the earnings test and workpapers for the twelve months ended September 30, 2019, the Sacramento district earned a rate of return of 5.50% on a recorded basis and 6.23% on a "pro forma" basis. The most recent authorized rate of return per D.18-03-035 was 7.61% adjusted to 7.65% to match the designated pro forma period.

In compliance with Decision D.18-12-021 California American Water requests, approval of all submitted tariff revisions.

Tier Designation:

This advice letter is submitted pursuant to General Order No. 96-B, D.18-12-021, Resolution W-5212, and is designated as a Tier 1 filing.

Effective Date:

California American requests an effective date of January 1, 2020.
