ADVICE LETTER NO. 1355

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

California-American Water Company (California American Water) (U210W) hereby submits for review this advice letter, including the following tariff sheets applicable to the Larkfield service area.

Purpose:

The purpose this Advice Letter is to activate the Stage 2 water use restrictions as described in the Water Shortage Contingency Plan in Section D of Rule 14.1 and Schedule 14.1.

Request:

This Advice Letter requests activation of Stage 2 of the Water Shortage Contingency Plan as authorized per Rule 14.1 and Schedule 14.1 for California American Water's Ventura, Los Angeles – Baldwin Hills, Los Angeles – Duarte, Los Angeles – San Marino (the "Los Angeles Districts"), and San Diego Service Areas.

Background

Prior Implementation of Rule 14.1 Water Shortage Contingency Plan

California American Water's Rule 14.1 was approved via Advice Letter 831, with an effective date of October 17, 2008. Schedules 14.1 for Ventura, the Los Angeles Districts, and San Diego Service Areas were implemented and approved via Advice Letter 881, effective February 22, 2011. Rule 14.1 has been updated several times since then, including most recently in June 2021 through Advice Letter 1337.

In May 2015, California American Water filed Advice Letter 1078-B, which moved the Ventura, Los Angeles Districts and San Diego Service Areas to Stage 2 effective June 1, 2015. Advice Letter 1090 moved Ventura to Stage 3 of the Water Shortage Contingency Plan effective September 14, 2015. Advice Letter 1131 moved Ventura from Stage 3 to Stage 2 effective August 1, 2016.

On April 7, 2017, Governor Jerry Brown issued Executive Order B-40-17 terminating the January 17, 2014, Drought State of Emergency for most of California. Following this executive order, California American Water filed Advice Letter 1175 effective September 1, 2017, to move all of its service areas (with the exception of Monterey Main) back to Stage 1.

Rule 14.1 provides that California American Water may file a Tier 2 advice letter to designate a particular stage of its Water Shortage Contingency Plan.

Current Water Supply Conditions and the Need to Implementation of Stage 2

On October 19, 2021, Governor Gavin Newsom expanded his Drought Emergency Proclamation of a State of Emergency to the entire state including Ventura, Los Angeles and San Diego counties, among other southern California Counties and San Francisco. The Proclamation makes several orders including asking local water suppliers to activate the water shortage contingency plans at a level appropriate for local supply conditions. On November 9, 2021, Metropolitan Water District also declared a drought emergency and called for increased efforts to maximize conservation.

In light of the above, California American Water requests authorization to activate Stage 2 mandatory restrictions for its Ventura, Los Angeles Districts and San Diego Service Areas.

Customer Noticing

In terms of customer outreach, the Public Advisor's Office has reviewed and approved California American Water's draft customer notices for the Geyserville service area. California American Water notices contain appropriate updates and detailed information about Rule and Schedule 14.1, for its Ventura, Los Angeles, and San Diego Service Area customers. California American Water anticipates mailing this notice to customers on or around January 10, 2022 and placing newspaper notices on the week of January 10, 2022. Virtual public hearings for each service area are set for January 25-27, 2022, to discuss the filing and get customer input. Information on the virtual public hearing is provided in the customer notice. Additionally, California American Water has been communicating with customers about the drought and the programs we have available through direct mail, bill inserts, earned media and social media.

Tier Designation:

These tariffs are submitted pursuant to General Order No. 96-B and this advice letter is designated as a Tier 2 filing. California American Water is simply requesting an update of its tariffs so that it is in compliance with Executive Order B-40-17.

Effective Date:

California American requests an effective date of February 15, 2022 – San Diego and Los Angeles and March 12, 2022 – Ventura.

NOTICE

Pursuant to Section 4.3 of General Order No. 96-B, a copy of this advice letter is being provided to those entities listed in the attached "SERVICE LIST PURSUANT TO SECTION 4.3 OF G.O. NO. 96-B." Per guidance from the California Public Utilities Commission's Water Division, during the COVID-19 pandemic advice letters will only be delivered electronically to the service list. Hardcopy advice letters will be mailed as soon as administrative staff are able to return to California American Water offices.

RESPONSE OR PROTEST¹

Anyone may submit a response or protest for this AL. When submitting a response or protest, please include the utility name and advice letter number in the subject line.

¹ G.O. 96-B, General Rule 7.4.1

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the AL. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds² are:

- 1. The utility did not properly serve or give notice of the AL;
- 2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- 3. The analysis, calculations, or data in the AL contain material error or omissions:
- 4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
- 5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
- 6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.
- 7. A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

DWA must receive a response or protest via email (<u>or</u> postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, <u>please include the utility name and</u> advice letter number in the subject line.

The addresses for submitting a response or protest are:

Email Address: Mailing Address:

Water.Division@cpuc.ca.gov CA Public Utilities Commission

Division of Water and Audits 505 Van Ness Avenue San Francisco, CA 94102

On the same day the response or protest is submitted to DWA, the respondent or protestant shall send a copy of the protest to California American Water at:

Email Address: Mailing Address:

WATER SHORTAGE CONTINGENCY PLAN
BALDWIN HILLS DISTRICT

Sheet 1

A. APPLICABILITY

- This schedule applies to all water customers served under all tariff schedules authorized by the Commission for Baldwin Hills District. It is only effective in times of implementation of the Water Shortage Contingency Plan enforcement stages, as required by Rule No. 14.1, and only for the period noted in the Special Conditions section below.
- 2. This Schedule shall remain dormant until activated by Commission authorization via a Tier 2 advice letter.
- 3. Once the Schedule is activated, utility can implement Stages of the Schedule by filing a Tier 2 advice letter
- 4. When this schedule is activated, it shall remain in effect until the utility files a Tier 1 advice letter to deactivate a specific stage of the Water Shortage Contingency Plan and such is authorized by the Commission.

B. TERRITORY

 This Schedule applies to all customers in the Baldwin Hills district. All other customers served by California-American Water Company are excluded from this particular tariff but are included in separate and distinct Water Shortage Contingency Plans.

C. STAGES

- Stage 1 of the Water Shortage Contingency Plan enacts water conservation requirements established in Rule 14.1 Section D. The non-essential or unauthorized water uses in Section D are in effect at all times.
- 2. Stage 2 First Enforcement Stage of the Water Shortage Contingency Plan A Stage 2 Water Shortage Contingency Plan condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 2 of the Water Shortage Contingency Plan will be enacted upon a determination that water usage should be further reduced from current levels, that a temporary water emergency exists necessitating implementation or that the requirements of Stage 1 are ineffective in complying with the necessary reduction.
- 3. Stage 3 Second Enforcement Stage of the Water Shortage Contingency Plan A Stage 3 Water Shortage Contingency Plan Condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 3 will be enacted upon a determination that water usage should be reduced further from current levels, that a temporary water emergency exists necessitating implementation or that the requirements in Stages 1 and 2 are ineffective in complying with the necessary reduction.

Sheet 2

C. STAGES (continued)

- 4. Stage 4 Third Enforcement Stage of the Water Shortage Contingency Plan A Stage 4 Water Shortage Contingency Plan condition is also referred to as an "Emergency" condition. A Stage 4 condition exists when it is determined that a critical water shortage emergency exists, or that the measures in Stages 1 through 3 are ineffective in complying with a necessary reduction.
- Stage 5 Mandatory Rationing. A rationing plan will be implemented when it is determined that the efforts in Stage 4 are insufficient to meet the regulatory or physical limitations of the available water supply.

D. WATER USE VIOLATION FINE

- 1. When an Enforcement Stage of the Water Shortage Contingency Plan has been activated by Commission authorization, the water use restrictions of Stage 1 in the Water Shortage Contingency Plan in Section D of Rule 14.1 become subject to fines and penalties imposed by the utility. The utility will first work closely with local law enforcement and public agencies charged with enforcing the mandatory water use restrictions. However, should the utility find that the local agency is not effectively enforcing the mandatory use restrictions, the utility, after written warnings, such as door hangers and letters, may begin to issue fines. If a customer is seen violating the water use restrictions, as outlined in Rule No. 14.1 and the Special Conditions below, the customer will be subject to the following fine structure:
 - First offense: Written warning, including explanation of penalty for subsequent offense.
 - Second offense within 1 year (of the same restriction): Written warning, including explanation of b. penalty for subsequent offense and \$100 fine.
 - Third offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$250 fine.
 - d. Fourth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$500 fine.
 - Fifth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and service termination pursuant to Rule 11 and a \$500 fine.
 - Sixth offense within 1 year. (of the same restriction): Installation of a flow restricting device on customer's water meter for duration of enforcement stage of the Water Contingency Plan.
- 2. Offenses for separate water use restrictions will each start at the warning stage.
- The water use violation fine is in addition to the regular rate schedule charges and any applicable drought surcharge rates.

Schedule No. 14.1-BH WATER SHORTAGE CONTINGENCY PLAN **BALDWIN HILLS DISTRICT**

Sheet 3

E. APPLICABLE DROUGHT SURCHARGE RATES

- 1. When in Stage 3 of the Water Shortage Contingency Plan a surcharge rate be will be added to all residential water usage in excess of 11 CCF. The surcharge rate will be equal to the Tier 3 residential rate for the Baldwin Hills, San Marino, and Duarte District in effect at the time Stage 3 is enacted. The surcharge rate for low income customers will be 50% of the Stage 3 surcharge rate. For all other customers there will be no surcharge imposed at Stage 3.

(T)

- 2. When in Stage 4 of the Water Shortage Contingency Plan The Stage 3 residential drought surcharge rates will be tripled for all usage in excess of 11 CCF in Stage 4. The surcharge rate for low income customers will be 50% of the residential Stage 4 surcharge rate. All other customers will pay a drought surcharge rate of 25% of the regular rate on all usage in Stage 4.
- Rule 14.1 includes provisions to allow customers to seek a variance to the drought surcharge rates. Those residential customers who prevail in their request for a variance will receive a 50% increase in the amount of usage not subject to the surcharge rate. The usage not subject to the surcharge rate would be increased from 11 CCF to 17 CCF.

F. ENFORCEMENT

- 1. Letter/Fine: From second violation of the same restriction within a one year period and onwards, a violation letter will be posted on property and sent to billing address, if different.
- 2. Aging of violation: Violations will accrue for the period of one year and be considered corrected and expunged one year after the violation occurs. The purpose of this rule is to prevent discrete violations from accruing in the event of a multi-year enforcement of the Water Contingency Plan.

If a customer has appealed the receipt of the penalty, the penalty will continue to be posted on the customer's account, but will not result in further service action, until at least 14 days after the resolution of appeals. Once resolved, if in the customers favor, the penalty will be immediately removed from the account. If not resolved in the customers favor, then the penalty will be due and payable as part of the next billing cycle and subject to all such further actions as with any other billed charge.

(2) For violation 6 instead of shut-off per Rule 11 and \$500 penalty, a flow restrictor will be installed for duration of enforcement.

G. FLOW RESTRICTOR REMOVAL CHARGE

The charge for removal of a flow-restricting device and/or reconnecting water service shall be:

Connection Size Removal Charges

5/8" to 1" \$150.00 1-1/2" to 2" \$200 3" and larger **Actual Cost**

H. SPECIAL CONDITIONS

- 1. The Tier 2 advice letter requesting activation of any Enforcement Stage of Schedule 14.1 shall include documentation of the overall water shortage justifying activation of that particular stage.
- 2. This tariff schedule shall remain in effect until the utility files a Tier 1 advice letter to deactivate specific stage of Water Shortage Contingency Plan and such is authorized by the Commission.
- Water use violation fines must be separately identified on each bill.
- 4. Water penalty surcharges must be separately identified on each bill.
- All bills are subject to the reimbursement fee set forth on Schedule No. UF.
- 6. All monies collected by the utility through drought surcharges or penalties or fees for water use violations shall be booked to the Water Revenue Adjustment Mechanism (WRAM) or a memorandum account to offset recovery of lost revenues. All flow restrictor removal charges collected by the utility and all expenses incurred by the utility to implement Rule 14.1 and Schedule 14.1, and the requirements of the California State Water Board Resources Control Board ("SWRCB"), or other agencies, that have not been considered in a General Rate Case or other proceeding, shall be tracked in a memorandum account for disposition as directed or authorized from time to time by the Commission and shall be recoverable by the utility if determined to be reasonable by the Commission.

10415-W 8630-W

Schedule No. 14.1-DU WATER SHORTAGE CONTINGENCY PLAN DUARTE DISTRICT

Sheet 1

A. APPLICABILITY

- This schedule applies to all water customers served under all tariff schedules authorized by the Commission for Duarte District. It is only effective in times of implementation of the Water Shortage Contingency Plan enforcement stages, as required by Rule No. 14.1, and only for the period noted in the Special Conditions section below.
- 2. This Schedule shall remain dormant until activated by Commission authorization via a Tier 2 advice letter.
- 3. Once the Schedule is activated, utility can implement Stages of the Schedule by filing a Tier 2 advice letter
- 4. When this schedule is activated, it shall remain in effect until the utility files a Tier 1 advice letter to deactivate a specific stage of the Water Shortage Contingency Plan and such is authorized by the Commission.

B. TERRITORY

 This Schedule applies to all customers in the Duarte district. All other customers served by California-American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Shortage Contingency Plans.

C. STAGES

- 1. Stage 1 of the Water Shortage Contingency Plan enacts water conservation requirements established in Rule 14.1 Section D. The non-essential or unauthorized water uses in Section D are in effect at all times.
- 2. Stage 2 First Enforcement Stage of the Water Shortage Contingency Plan A Stage 2 Water Shortage Contingency Plan condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 2 of the Water Shortage Contingency Plan will be enacted upon a determination that water usage should be further reduced from current levels, that a temporary water emergency exists necessitating implementation or that the requirements of Stage 1 are ineffective in complying with the necessary reduction.
- 3. Stage 3 Second Enforcement Stage of the Water Shortage Contingency Plan A Stage 3 Water Shortage Contingency Plan Condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 3 will be enacted upon a determination that water usage should be reduced further from current levels, that a temporary water emergency exists necessitating implementation or that the requirements in Stages 1 and 2 are ineffective in complying with the necessary reduction.

Sheet 2

C. STAGES (Continued)

- 4. Stage 4 Third Enforcement Stage of the Water Shortage Contingency Plan A Stage 4 Water Shortage Contingency Plan condition is also referred to as an "Emergency" condition. A Stage 4 condition exists when it is determined that a critical water shortage emergency exists, or that the measures in Stages 1 through 3 are ineffective in complying with a necessary reduction.
- Stage 5 Mandatory Rationing. A rationing plan will be implemented when it is determined that the efforts in Stage 4 are insufficient to meet the regulatory or physical limitations of the available water supply.

D. WATER USE VIOLATION FINE

- When an Enforcement Stage of the Water Shortage Contingency Plan has been activated by Commission. authorization, the water use restrictions of Stage 1 in the Water Shortage Contingency Plan in Section D of Rule 14.1 become subject to fines and penalties imposed by the utility. The utility will first work closely with local law enforcement and public agencies charged with enforcing the mandatory water use restrictions. However, should the utility find that the local agency is not effectively enforcing the mandatory use restrictions, the utility, after written warnings, such as door hangers and letters, may begin to issue fines. If a customer is seen violating the water use restrictions, as outlined in Rule No. 14.1 and the Special Conditions below, the customer will be subject to the following fine structure:
 - First offense: Written warning, including explanation of penalty for subsequent offense. a.
 - Second offense within 1 year (of the same restriction): Written warning, including explanation of penalty b. for subsequent offense and \$100 fine.
 - Third offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$250 fine.
 - d. Fourth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$500 fine.
 - Fifth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and service termination pursuant to Rule 11 and a \$500 fine.
 - Sixth offense within 1 year. (of the same restriction): Installation of a flow restricting device on customer's water meter for duration of enforcement stage of the Water Contingency Plan.
- 2. Offenses for separate water use restrictions will each start at the warning stage.
- The water use violation fine is in addition to the regular rate schedule charges and any applicable drought surcharge rates.

10417-W 8632-W

Schedule No. 14.1-DU WATER SHORTAGE CONTINGENCY PLAN DUARTE DISTRICT Sheet 3

E. APPLICABLE PENALTY RATES

- 1. When in Stage 3 of the Water Shortage Contingency Plan a surcharge rate be will be added to all residential water usage in excess of 11 CCF. The surcharge rate will be equal to the Tier 3 residential rate for the Baldwin Hills, San Marino, and Duarte districts in effect at the time Stage 3 is enacted. The surcharge rate for low income customers will be 50% of the Stage 3 surcharge rate. For all other customers there will be no surcharge imposed at Stage 3.
- 2. When in Stage 4 of the Water Shortage Contingency Plan The Stage 3 residential drought surcharge rates will be tripled for all usage in excess of 11 CCF in Stage 4. The surcharge rate for low income customers will be 50% of the residential Stage 4 surcharge rate. All other customers will pay a drought surcharge rate of 25% of the regular rate on all usage in Stage 4.
- Rule 14.1 includes provisions to allow customers to seek a variance to the drought surcharge rates. Those
 residential customers who prevail in their request for a variance will receive a 50% increase in the amount
 of usage not subject to the surcharge rate. The usage not subject to the surcharge rate would be increased
 from 11 CCF to 17 CCF.

F. ENFORCEMENT

- 1. Letter/Fine: From second violation of the same restriction within a one year period and onwards, a violation letter will be posted on property and sent to billing address, if different.
- 2. Aging of violation: Violations will accrue for the period of one year and be considered corrected and expunged one year after the violation occurs. The purpose of this rule is to prevent discrete violations from accruing in the event of a multi-year enforcement of the Water Contingency Plan.

- This schedule applies to all water customers served under all tariff schedules authorized by the Commission for San Diego District. It is only effective in times of implementation of the Water Shortage Contingency Plan enforcement stages, as required by Rule No. 14.1, and only for the period noted in the Special Conditions section below.
- 2. This Schedule shall remain dormant until activated by Commission authorization via a Tier 2 advice letter.
- 3. Once the Schedule is activated, utility can implement Stages of the Schedule by filing a Tier 2 advice letter
- 4. When this schedule is activated, it shall remain in effect until the utility files a Tier 1 advice letter to deactivate a specific stage of the Water Shortage Contingency Plan and such is authorized by the Commission.

B. TERRITORY

 This Schedule applies to all customers in the San Diego district. All other customers served by California-American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Shortage Contingency Plans.

C. STAGES

- 1. Stage 1 of the Water Shortage Contingency Plan enacts water conservation requirements established in Rule 14.1 Section D. The non-essential or unauthorized water uses in Section D are in effect at all times.
- 2. Stage 2 First Enforcement Stage of the Water Shortage Contingency Plan A Stage 2 Water Shortage Contingency Plan condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 2 of the Water Shortage Contingency Plan will be enacted upon a determination that water usage should be further reduced from current levels, that a temporary water emergency exists necessitating implementation or that the requirements of Stage 1 are ineffective in complying with the necessary reduction.
- 3. Stage 3 Second Enforcement Stage of the Water Shortage Contingency Plan A Stage 3 Water Shortage Contingency Plan Condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 3 will be enacted upon a determination that water usage should be reduced further from current levels, that a temporary water emergency exists necessitating implementation or that the requirements in Stages 1 and 2 are ineffective in complying with the necessary reduction.

Sheet 2

C. STAGES (Continued)

- 4. Stage 4 Third Enforcement Stage of the Water Shortage Contingency Plan A Stage 4 Water Shortage Contingency Plan condition is also referred to as an "Emergency" condition. A Stage 4 condition exists when it is determined that a critical water shortage emergency exists, or that the measures in Stages 1 through 3 are ineffective in complying with a necessary reduction.
- Stage 5 Mandatory Rationing. A rationing plan will be implemented when it is determined that the efforts in Stage 4 are insufficient to meet the regulatory or physical limitations of the available water supply.

D. WATER USE VIOLATION FINE

- When an Enforcement Stage of the Water Shortage Contingency Plan has been activated by Commission. authorization, the water use restrictions of Stage 1 in the Water Shortage Contingency Plan in Section D of Rule 14.1 become subject to fines and penalties imposed by the utility. The utility will first work closely with local law enforcement and public agencies charged with enforcing the mandatory water use restrictions. However, should the utility find that the local agency is not effectively enforcing the mandatory use restrictions, the utility, after written warnings, such as door hangers and letters, may begin to issue fines. If a customer is seen violating the water use restrictions, as outlined in Rule No. 14.1 and the Special Conditions below, the customer will be subject to the following fine structure:
 - First offense: Written warning, including explanation of penalty for subsequent offense.
 - Second offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
 - Third offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$250 fine.
 - Fourth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$500 fine.
 - Fifth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and service termination pursuant to Rule 11 and a \$500 fine.
 - Sixth offense within 1 year. (of the same restriction): Installation of a flow restricting device on customer's water meter for duration of enforcement stage of the Water Contingency Plan.
- Offenses for separate water use restrictions will each start at the warning stage. 2.
- The water use violation fine is in addition to the regular rate schedule charges and any applicable drought surcharge rates.

Sheet 3

E. APPLICABLE DROUGHT SURCHARGE RATES

- 1. When in Stage 3 of the Water Shortage Contingency Plan a surcharge rate be will be added to all residential water usage in excess of 8 CCF. The surcharge rate will be equal to the Tier 2 residential rate in effect at the time Stage 3 is enacted. The surcharge rate for low income customers will be 50% of the Stage 3 surcharge rate. For all other customers there will be no surcharge imposed at Stage 3.
- 2. When in Stage 4 of the Water Shortage Contingency Plan The Stage 3 residential drought surcharge rates will be tripled for all usage in excess of 8 CCF in Stage 4. The surcharge rate for low income customers will be 50% of the residential Stage 4 surcharge rate. All other customers will pay a drought surcharge rate of 25% of the regular rate on all usage in Stage 4.
- Rule 14.1 includes provisions to allow customers to seek a variance to the drought surcharge rates. Those residential customers who prevail in their request for a variance will receive a 50% increase in the amount of usage not subject to the surcharge rate. The usage not subject to the surcharge rate would be increased from 8 CCF to 12 CCF.

F. ENFORCEMENT

- 1. Letter/Fine: From second violation of the same restriction within a one year period and onwards, a violation letter will be posted on property and sent to billing address, if different.
- 2. Aging of violation: Violations will accrue for the period of one year and be considered corrected and expunged one year after the violation occurs. The purpose of this rule is to prevent discrete violations from accruing in the event of a multi-year enforcement of the Water Contingency Plan.

WATER SHORTAGE CONTINGENCY PLAN
VENTURA DISTRICT

Sheet 1

A. APPLICABILITY

San Diego, CA 92101

- This schedule applies to all water customers served under all tariff schedules authorized by the Commission for Ventura District. It is only effective in times of implementation of the Water Shortage Contingency Plan enforcement stages, as required by Rule No. 14.1, and only for the period noted in the Special Conditions section below.
- 2. This Schedule shall remain dormant until activated by Commission authorization via a Tier 2 advice letter.
- 3. Once the Schedule is activated, utility can implement Stages of the Schedule by filing a Tier 2 advice letter
- 4. When this schedule is activated, it shall remain in effect until the utility files a Tier 1 advice letter to deactivate a specific stage of the Water Shortage Contingency Plan and such is authorized by the Commission.

B. TERRITORY

 This Schedule applies to all customers in the Ventura district. All other customers served by California-American Water Company are excluded from this particular tariff, but are included in separate and distinct Water Shortage Contingency Plans.

C. STAGES

- 1. Stage 1 of the Water Shortage Contingency Plan enacts water conservation requirements established in Rule 14.1 Section D. The non-essential or unauthorized water uses in Section D are in effect at all times.
- 2. Stage 2 First Enforcement Stage of the Water Shortage Contingency Plan A Stage 2 Water Shortage Contingency Plan condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 2 of the Water Shortage Contingency Plan will be enacted upon a determination that water usage should be further reduced from current levels, that a temporary water emergency exists necessitating implementation or that the requirements of Stage 1 are ineffective in complying with the necessary reduction.
- 3. Stage 3 Second Enforcement Stage of the Water Shortage Contingency Plan A Stage 3 Water Shortage Contingency Plan Condition exists when it is determined that due to drought or other water supply conditions, a water supply shortage or threatened shortage exists and a further consumer demand reduction is necessary to make more efficient use of water and appropriately respond to existing water conditions. Stage 3 will be enacted upon a determination that water usage should be reduced further from current levels, that a temporary water emergency exists necessitating implementation or that the requirements in Stages 1 and 2 are ineffective in complying with the necessary reduction.

C. STAGES (continued)

- 4. Stage 4 Third Enforcement Stage of the Water Shortage Contingency Plan A Stage 4 Water Shortage Contingency Plan condition is also referred to as an "Emergency" condition. A Stage 4 condition exists when it is determined that a critical water shortage emergency exists, or that the measures in Stages 1 through 3 are ineffective in complying with a necessary reduction.
- Stage 5 Mandatory Rationing. A rationing plan will be implemented when it is determined that the efforts in Stage 4 are insufficient to meet the regulatory or physical limitations of the available water supply.

D. WATER USE VIOLATION FINE

- 1. When an Enforcement Stage of the Water Shortage Contingency Plan has been activated by Commission authorization, the water use restrictions of Stage 1 in the Water Shortage Contingency Plan in Section D of Rule 14.1 become subject to fines and penalties imposed by the utility. The utility will first work closely with local law enforcement and public agencies charged with enforcing the mandatory water use restrictions. However, should the utility find that the local agency is not effectively enforcing the mandatory use restrictions, the utility, after written warnings, such as door hangers and letters, may begin to issue fines. If a customer is seen violating the water use restrictions, as outlined in Rule No. 14.1 and the Special Conditions below, the customer will be subject to the following fine structure:
 - First offense: Written warning, including explanation of penalty for subsequent offense. a.
 - Second offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and \$100 fine.
 - Third offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$250 fine.
 - d. Fourth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and a \$500 fine.
 - e. Fifth offense within 1 year (of the same restriction): Written warning, including explanation of penalty for subsequent offense and service termination pursuant to Rule 11 and a \$500 fine.
 - Sixth offense within 1 year. (of the same restriction): Installation of a flow restricting device on customer's water meter for duration of enforcement stage of the Water Contingency Plan.
- 2. Offenses for separate water use restrictions will each start at the warning stage.
- The water use violation fine is in addition to the regular rate schedule charges and any applicable drought surcharge rates.

Schedule No. 14.1-VEN WATER SHORTAGE CONTINGENCY PLAN **VENTURA DISTRICT**

Sheet 3

E. APPLICABLE DROUGHT SURCHARGE RATES

- 1. When in Stage 3 of the Water Shortage Contingency Plan a surcharge rate will be added to all residential water usage in excess of 89.7 CGL per month. The surcharge rate will be equal to 50% of the Tier 3 residential rate in effect at the time Stage 3 is enacted. The surcharge rate for low income customers will be 25% of the Tier 3 residential rate in effect at the time Stage 3 is enacted (i.e., 50% of the residential Stage 3 surcharge rate). For all other customers there will be no surcharge imposed at Stage 3.
- When in Stage 4 of the Water Shortage Contingency Plan The Stage 3 residential drought surcharge rates will be tripled for all usage in excess of 89.7 CGL per month in Stage 4. The surcharge rate for low-income customers will be 50% of the residential Stage 4 surcharge rate. All other customers will pay a drought surcharge rate of 25% of the regular rate on all usage in Stage
- Rule 14.1 includes provisions to allow customers to seek a variance to the drought surcharge rates. Those residential customers who prevail in their request for a variance will receive a 50% increase in the amount of usage not subject to the surcharge rate. The usage not subject to the surcharge rate would be increased from 89.7 CGL to 134.6 CGL per month.

F. ENFORCEMENT

- 1. Letter/Fine: From second violation of the same restriction within a one-year period and onwards, a violation letter will be posted on property and sent to billing address, if different.
- 2. Aging of violation: Violations will accrue for the period of one year and be considered corrected and expunged one year after the violation occurs. The purpose of this rule is to prevent discrete violations from accruing in the event of a multi-year enforcement of the Water Contingency Plan.

G. FLOW RESTRICTOR REMOVAL CHARGE

The charge for removal of a flow-restricting device and/or reconnecting water service shall be:

Connection Size Removal Charges

5/8" to 1" \$150.00 1-1/2" to 2" \$200 3" and larger Actual Cost

H. SPECIAL CONDITIONS

- 1. The Tier 2 advice letter requesting activation of any Enforcement Stage of Schedule 14.1 shall include documentation of the overall water shortage justifying activation of that particular stage.
- 2. This tariff schedule shall remain in effect until the utility files a Tier 1 advice letter to deactivate specific stage of Water Shortage Contingency Plan and such is authorized by the Commission.
- 3. Water use violation fines must be separately identified on each bill.
- 4. Water penalty surcharges must be separately identified on each bill.
- 5. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
- 6. All monies collected by the utility through drought surcharges or penalties or fees for water use violations shall be booked to the Water Revenue Adjustment Mechanism (WRAM) or a memorandum account to offset recovery of lost revenues. All flow restrictor removal charges collected by the utility and all expenses incurred by the utility to implement Rule 14.1 and Schedule 14.1, and the requirements of the California State Water Board Resources Control Board ("SWRCB"), or other agencies, that have not been considered in a General Rate Case or other proceeding, shall be tracked in a memorandum account for disposition as directed or authorized from time to time by the Commission and shall be recoverable by the utility if determined to be reasonable by the Commission.
